

LAB Network Standards *(effective 11.16.2023)*

As part of the eviCore healthcare network, we have designed a comprehensive set of Standards to ensure patients have confidence they will receive the best service available. Please REVIEW all requirements listed within this document prior to applying/reapplying to the network.

Facility Requirements:

1. Completed application upon Initial and Recredentialing cycles. This includes a current signed and dated attestation.
2. Must participate with Medicare and be in good standings. If you are contracting for a Medicaid program within eviCore's network, you are required to be in good standings with Medicaid.
3. Facility shall maintain comprehensive general liability insurance at minimum levels required by Payer, but in no event less than \$1,000,000 per claim and \$3,000,000 in the annual aggregate.
4. Facility has not and shall not have been disciplined, suspended, or terminated for cause from a PPO, HMO, or other managed care organization.
5. Facility must have all appropriate license(s) and certification(s) mandated by federal government and state regulatory agencies, including, without limitation, any certificate of operation, and certificate of occupancy.
6. The applicant shall maintain appropriate laboratory records as required under CLIA '88, and shall, subject to applicable law, provide such records to eviCore as deemed necessary by eviCore, in its sole discretion, for purposes of utilization management and/or quality assessment.
7. Facility must have and maintain a CLIA license that supports the highest complexity testing performed by the facility.
8. All Medical Laboratory Specialists must be licensed by the state in which they practice, if applicable.
9. Exceptions to these requirements can be made on a case-by case basis to conform to the network requirements at the request of the client health plan, providing the Facility otherwise meets the remainder of the Standards.
