

## Zulresso™ (brexanolone injection)

When requesting Zulresso™ (brexanolone injection), the individual requiring treatment must be diagnosed with an FDA-approved indication and meet the specific coverage guidelines and applicable safety criteria for the covered indication.

### FDA-approved Indication

Zulresso is indicated for the treatment of postpartum depression (PPD) in adults.

### Coverage Guidelines

#### For the treatment of postpartum depression

An individual must meet **all** of the following criteria for approval:

- Has been diagnosed with moderate to severe depression;
- Is  $\leq 6$  months postpartum;
- Is not currently pregnant;
- Is 18 years of age or older; AND
- Zulresso is prescribed by or in consultation with a psychiatrist or an obstetrician-gynecologist.

**Approval duration: one time dose**

### Dosing Recommendations

Approve up to 90 mcg/kg/hour intravenously once per postpartum period as a one-time, 60-hour infusion.
