

## Radiation Therapy Central Nervous System (CNS) Cancer Request

For NON-URGENT requests, please complete this document for authorization along with any relevant clinical documentation requested within this document (i.e. radiation therapy consultation, comparison plan, etc.) before submitting the case by web, phone, or fax. Failure to provide all relevant information may delay the determination. Phone and fax numbers can be found on eviCore.com under the Guidelines and Fax Forms section. You may also log into the provider portal located on the site to submit an authorization request. URGENT (same day) requests must be submitted by phone.

| it/<br>er            | First Name:  | Middle Initial: |            | Last Name:          |  |
|----------------------|--|-----------------|------------|---------------------|--|
| Patient/<br>Member   | DOB (mm/dd/yyyy):  |                 | Ger        | Gender: Male Female |  |
| Pa                   | Health Plan:   |                 | Member ID: |                     |  |
|                      |  |                 |            |                     |  |
|                      | ICD-10 Code(s):  |                 |            |                     |  |
|                      | What is the radiation therapy treatment start date (mm/dd/yyyy)?   |                 |            |                     |  |
|                      | eviCore is utilizing a clinical decision support submission model for this diagnosis.  Please note that only some of the following example questions will need to be answered during the submission of your prior authorization request.  For best results, the answers to these questions should be submitted online.   |                 |            |                     |  |
| Clinical Information | What is the diagnosis?   |                 |            |                     |  |
|                      | ☐ Grade I glioma (i.e. pilocytic astrocytoma)         ☐ Grade II glioma (i.e. oligodendroglioma, infiltrative supratentorial astrocytoma, diffuse astrocytoma)         ☐ Grade III glioma (i.e. anaplastic astrocytoma, anaplastic oligodendroglioma, anaplastic oligoastrocytoma)         ☐ Grade IV glioma (i.e. glioblastoma, GBM)         ☐ Ependymoma         ☐ Medulloblastoma         ☐ Primary CNS lymphoma         ☐ Other:   |                 |            |                     |  |
| Sall                 | What is the treatment intent?  |                 |            |                     |  |
| Clinic               | <ul> <li>☐ Curative, no surgery planned or performed (includes patients who underwent biopsy only)</li> <li>☐ Curative, following (adjuvant) a complete or gross total resection (GTR)</li> <li>☐ Curative, following (adjuvant) an incomplete or subtotal resection (STR)</li> <li>☐ Curative, pre-operative (neo-adjuvant)</li> <li>☐ Locally recurrent without previous radiation</li> <li>☐ Locally recurrent in the setting of prior irradiation</li> <li>☐ Palliative</li> </ul> |                 |            |                     |  |
|                      | Will the patient be receiving concurrent chemotherapy? ☐ Yes ☐ No ☐ N/A  |                 |            |                     |  |
|                      | If Primary CNS lymphoma, what was the response to chemotherapy?  |                 |            |                     |  |
|                      | ☐ Complete response (CR) ☐ Partial response (PR) ☐ No response (NR) ☐ Progressive disease (POD) ☐ No chemotherapy was given  |                 |            |                     |  |
