

Radiation Therapy Breast Cancer Request

For NON-URGENT requests, please complete this document for authorization along with any relevant clinical documentation requested within this document (i.e. radiation therapy consultation, comparison plan, etc.) before submitting the case by web, phone, or fax. Failure to provide all relevant information may delay the determination. Phone and fax numbers can be found on eviCore.com under the Guidelines and Fax Forms section. You may also log into the provider portal located on the site to submit an authorization request. URGENT (same day) requests must be submitted by phone.

ıt/ er	First	Name:	Middle Initial:		Last Name:								
Patient/ Member	DOB (mm/dd/yyyy):				Gender: Male Female								
P ₂	Health Plan:				Member ID:								
Clinical Information	ICD-	D-10 Code(s):											
	Wha	What is the radiation therapy treatment start date (mm/dd/yyyy)?											
		For best results, the answers to these questions should be submitted online.											
	1.	Which breast will be treated?			Bilateral	Left	□Right	□ N/A					
	2.	If Bilateral, will treatment be de	elivered concurren	tly to	both breasts?	☐ Yes	□No	□ N/A					
	3.	What is the T stage? If bilateral, T stage will be needed for both breasts.											
		☐ TX ☐ Tis (DCIS)	□ T0 □] T1	□ T2	☐ T3	☐ T4						
	4.	What is the N stage? If bilateral, N stage will be needed for both breasts.											
		□ NX □ N0	□ N1 □] N2	□ N3								
	5.	Does the patient have a history of distant metastases (stage M1) (i.e. to brain, lung, liver, bone)?											
	6.	What is the treatment plan?											
		 □ Whole breast radiation with regional nodal radiation [Continue to question 9] □ Whole breast radiation with regional nodal radiation (i.e., axillary, supraclavicular, and/or internal mammary nodes) [Continue to question 7] □ Partial breast irradiation (PBI) [Continue to question 9] □ Accelerated partial breast irradiation (APBI) [Continue to question 9] □ Intraoperative radiation therapy (IORT) [Continue to question 9] □ Post-mastectomy radiation therapy (PMRT) [Continue to question 7] □ Metastatic breast cancer to treat with locoregional radiation therapy [Continue to question 9] □ Palliative [Continue to question 9] □ Other: [Continue to question 9] 											
	7.	Will treatment include the supr		☐ Yes	☐ No	□ N/A							
	8.	Will treatment include the inter	☐ Yes	☐ No	□ N/A								

	9.	How many fractions will be used for each phase?						
Clinical Information		Phase 1 Phase 2 Phase 3 Treatment Technique						
					Conventional isodose planning, comp	plex		
					Electron Beam Therapy			
					3D conformal			
		Intensity Modulated Radiation Therapy (IMRT)						
		Tomotherapy (IMRT) Rotational Arc Therapy/Volumetric Modulated Arc The Proton Beam Therapy						
								/MAT)
					Stereotactic Body Radiation Therapy	(SBRT)		
		Biology-guided Radiation Therapy (BgRT) Low Dose Rate (LDR) Brachytherapy						
		High Dose Rate (HDR) Brachytherapy						
		AccuBoost						
	Electronic brachytherapy (HDR)							
			Electron Beam IORT (i.e. Mobetron)					
					Low-Energy X-Ray IORT (i.e. IntraBe	eam)		
					Electronic Brachytherapy IORT (i.e. 2	Xoft or Axxen	t)	
					N/A			
	10.	Will image guided radiation theraphase?			py (IGRT) be used for the first	☐ Yes	□No	□ N/A
	11.	Will respiratory motion tracking be used?			e used?	☐ Yes	□No	□ N/A
	12.	How will the patient be treated?					☐ Prone	□ N/A
	13.	Will image guided radiation therapy (IGRT) be used for the second phase?					□No	□ N/A
	14.	Will image phase?	guided rad	Yes	□No	□ N/A		
	15.	If the request is for Accelerated partial breast irradiation (APBI), will the treatment be delivered twice daily (i.e. BID)?						
		Yes	☐ No	□ N/A				
	16.	If the request is for IMRT, Tomotherapy, or Rotational Arc Therapy/VMAT, has a 3D vs. IMRT comparison been completed?						
		☐ Yes	☐ No	☐ Unknov	wn
