

## **Radiation Therapy Breast Cancer Request**

For NON-URGENT requests, please complete this document for authorization along with any relevant clinical documentation requested within this document (i.e. radiation therapy consultation, comparison plan, etc.) before submitting the case by web, phone, or fax. Failure to provide all relevant information may delay the determination. Phone and fax numbers can be found on eviCore.com under the Guidelines and Fax Forms section. You may also log into the provider portal located on the site to submit an authorization request. URGENT (same day) requests must be submitted by phone.

Patient/ Member	First	Name:	Middle Initial:		Last Name:								
	DOB (mm/dd/yyyy):				Gender: Male Female								
	Health Plan:				Member ID:								
Clinical Information	ICD-	0-10 Code(s):											
	Wha	/hat is the radiation therapy treatment start date (mm/dd/yyyy)?											
		For best results, the answers to these questions should be submitted online.											
	1.	Which breast will be treated?			☐ Bilateral	☐ Left	Right	□ N/A					
	2.	If Bilateral, will treatment be de	elivered concurren	tly to	both breasts?	☐ Yes	□No	□ N/A					
	3.	What is the T stage? If bilateral, T stage will be needed for both breasts.											
		☐ TX ☐ Tis (DCIS)	□ T0 □	] T1	☐ T2	☐ T3	☐ T4						
	4.	What is the N stage? If bilateral, N stage will be needed for both breasts.											
		□ NX □ N0	□ N1 □	] N2	□ N3								
	5.	Does the patient have a history of distant metastases (stage M1) (i.e. to brain, lung, liver, bone)?											
	6.	What is the treatment plan?											
		<ul> <li>Whole breast radiation without regional nodal radiation [Continue to question 9]</li> <li>Whole breast radiation with regional nodal radiation (i.e., axillary, supraclavicular, and/or internal mammary nodes) [Continue to question 7]</li> <li>Partial breast irradiation (PBI) [Continue to question 9]</li> <li>Accelerated partial breast irradiation (APBI) [Continue to question 9]</li> <li>Intraoperative radiation therapy (IORT) [Continue to question 9]</li> <li>Post-mastectomy radiation therapy (PMRT) [Continue to question 7]</li> <li>Metastatic breast cancer to treat with locoregional radiation therapy [Continue to question 9]</li> <li>Palliative [Continue to question 9]</li> <li>Other: [Continue to question 9]</li> </ul>											
	7.	Will treatment include the supr	aclavicular nodes	?		☐ Yes	☐ No	□ N/A					
	8.	Will treatment include the inter	nal mammary noc	des?		☐ Yes	☐ No	□ N/A					

	9.	How many fractions will be used for each phase?							
		Phase 1 Phase 2 Phase 3 Treatment Technique							
		Conventional isodose planning, complex							
		Electron Beam Therapy							
				3D conformal					
					Intensity Modulated Radiation Therap	y (IMRT)			
Clinical Information					Tomotherapy (IMRT)				
	Rotational Arc Therapy/				Rotational Arc Therapy/Volumetric Mo	odulated Arc	Therapy (\	/MAT)	
		Proton Beam Therapy							
		Stereotactic Body Radiation Therapy (SBRT)  Biology-guided Radiation Therapy (BgRT)  Low Dose Rate (LDR) Brachytherapy  High Dose Rate (HDR) Brachytherapy							
		AccuBoost  Electronic brachytherapy (HDR)							
					Electron Beam IORT				
					Low-Energy X-Ray IORT				
					Electronic Brachytherapy IORT				
					N/A				
	10.	Will image guided radiation therapy (IGR phase?			py (IGRT) be used for the first	☐ Yes	□No	□ N/A	
	11.	Will respiratory motion tracking be used			e used?	Yes	□No	□ N/A	
	12.		ne patient be		Supine	☐ Prone	□ N/A		
	13.	Will image guided radiation therapy (IGRT) be used for the second phase?					□No	□ N/A	
	14.	Will image guided radiation therapy (IGRT) be used for the third phase?					□No	□ N/A	
	15.	If the request is for Accelerated partial breast irradiation (APBI), will the treatment be delivered twice daily (i.e. BID)?  ☐ Yes ☐ No ☐ N/A							
	16.	If the requ		RT, Tomoth	nerapy, or Rotational Arc Therapy/VMA	T, has a 3D	vs. IMRT		
		☐ Yes	☐ No	Unknov	vn				

If yes to question 16, please complete the following and upload or fax a completed 3D/IMRT
