# **Musculoskeletal Management Prior Authorization Process**

---

## Program Overview

eviCore healthcare will begin accepting requests on 12/15/2020 for dates of service 1/1/2021 and beyond for the expanded membership network.

**Prior authorization applies to services that are:**

- Outpatient
- Elective / Non-emergent
- Diagnostic

**Prior authorization **does not apply** to services that are performed in:**

- Emergency room
- Inpatient
- 23-hour observation

**It is the responsibility of the ordering provider to request prior authorization approval for services.**

# The expanded membership network.

---

- **As a part of the 2021 expansion, Oscar will offer Individual and Family Plans for the first time in:**
  - North Carolina (Asheville)
  - Oklahoma (Oklahoma City)
  - 4 markets in Iowa, including Des Moines and Sioux City
- **Existing state footprints will be expanded to**
  - Boulder, Colorado
  - 3 markets in Northeast Pennsylvania,
  - multiple markets across Florida, including Jacksonville, Sarasota, and Tallahassee
  - across new counties in Phoenix, AZ, and Columbus, OH

# Applicable Membership

**Authorization is required** for Oscar members enrolled in Commercial (fully insured) plans in the following states/cities:

Arizona	Phoenix
Colorado	Boulder & Denver
Florida	Daytona, Homosasss Springs, Jacksonville, Miami, Ocala, Orlando, Sarasota, Tallahassee, Tampa, Port St. Luci, & Punta Gorda
Georgia	Atlanta
Iowa	Des Moines, Sioux City, Waterloo, & Dubuque
Kansas & Missouri	Kansas City
New Jersey	
New York	
North Carolina	Asheville
Ohio	Cleveland & Columbus
Oklahoma	Oklahoma City
Pennsylvania	Philadelphia, Allentown, Scranton & East Stroudsburg
Tennessee	Memphis & Nashville
Texas	Austin, Dallas - Fort Worth, El Paso, Houston, & San Antonio
Virginia	Richmond

## Prior Authorization Required:

### Interventional Pain:

- Spinal injections
- Spinal implants
  - Spinal cord stimulators
  - Pain pumps

### Joint Surgery:

- Large joint replacement
  - Arthroscopic and open procedures

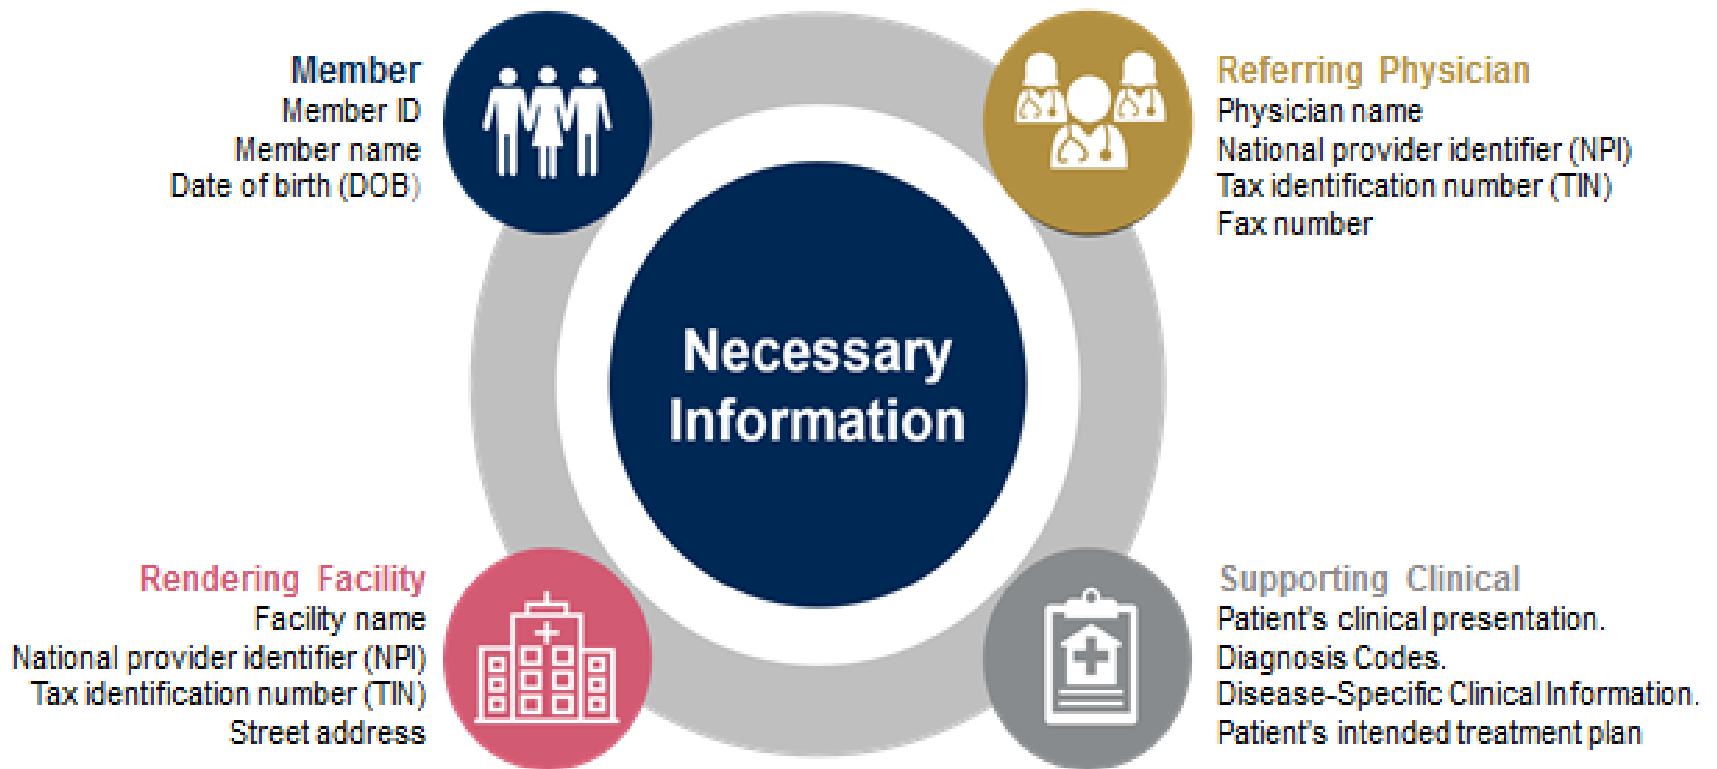

### Spine Surgery:

- Spinal implants
  - Spinal cord stimulators
  - Pain pumps
- Cervical/Thoracic/Lumbar
  - Decompressions
  - Fusions

To find a complete list of Current Procedural Terminology (CPT) codes that require prior authorization through eviCore, please visit:

<https://www.evicore.com/resources/health-plan/Oscar>

# Needed Information

## If clinical information is needed, please be able to supply:

- Prior tests, lab work, and/or imaging studies performed related to this diagnosis
- The notes from the patient's last visit related to the diagnosis
- Type and duration of treatment performed to date for the diagnosis

# Prior Authorization Outcomes

## ➤ Approved Requests:

- All requests are processed within **2** business days after receipt of all clinical information.

## ➤ Delivery:

- **Faxed** to ordering provider and rendering facility.
- **Mailed** to the member.
- Information can be printed on demand by logging into eviCore healthcare portal.

## ➤ Denied Requests:

- Communication of denial determination.
- Communication of the rationale for the denial.
- How to request a Clinical Consultation.

## ➤ Delivery:

- **Faxed** to the ordering provider and rendering facility.
- **Mailed** to the member.

# Special Circumstances

## Appeals:

- eviCore healthcare will be delegated for first level member and provider appeals.
- Requests for appeals must be submitted in writing to eviCore **within 180 days** of the initial determination.
- A written notice of the appeal decision will be **mailed** to the member and **faxed** to the provider.

## Outpatient Urgent Studies:

- **Medically urgent requests are defined as conditions that are a risk to the patient's life, health, ability to regain maximum function, or the patient is having severe pain that required a medically urgent procedure.**
- Contact eviCore by phone or use our online portal to request an expedited prior authorization review and provide clinical information.
- Urgent Cases will be reviewed within **72 hours** of the request.
- **Verbal** outreach is made to the ordering provider.

---

# Web Portal Services

---

# Portal Compatibility

---

The eviCore.com website is compatible with the following web browsers:

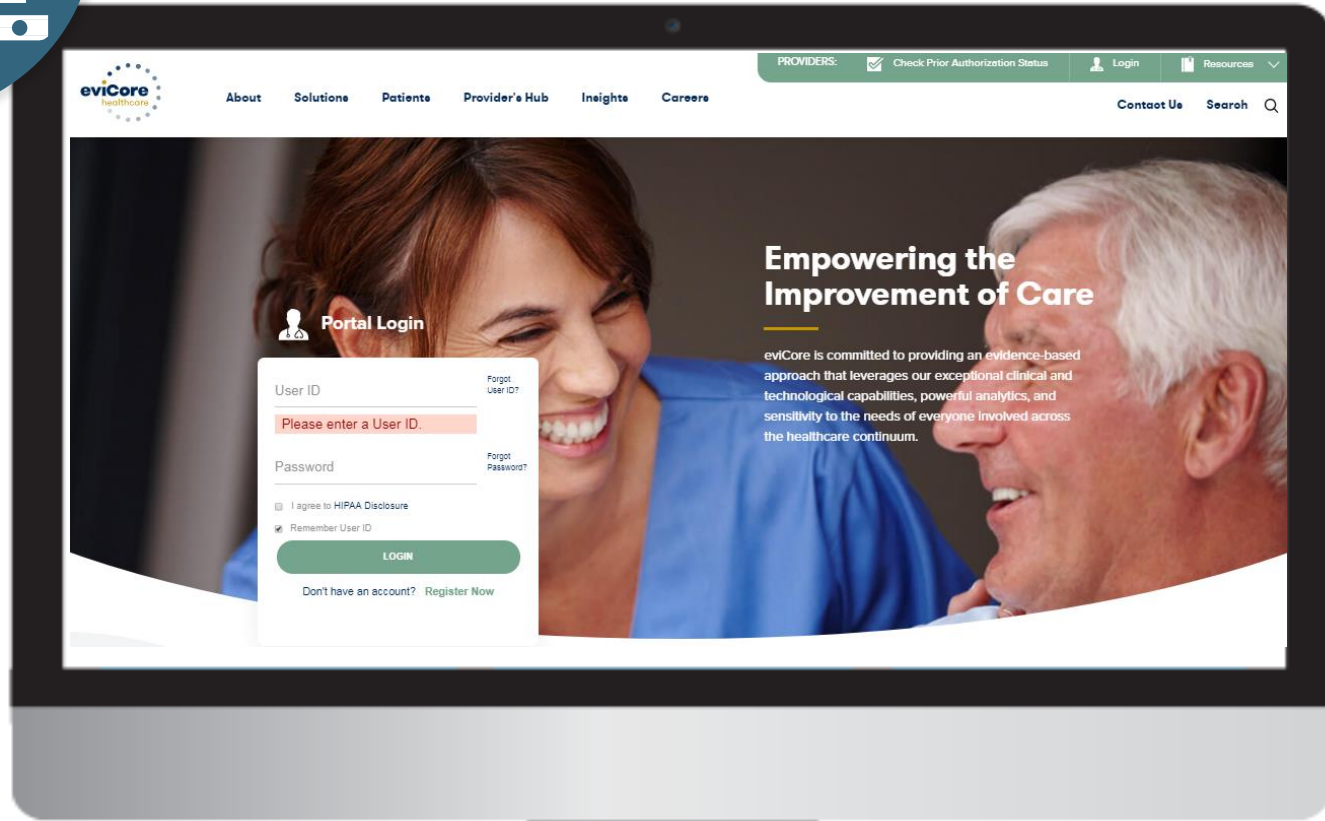

- Google Chrome
- Mozilla Firefox
- Internet Explorer 9, 10, and 11

You may need to disable pop-up blockers to access the site. For information on how to disable pop-up blockers for any of these web browsers, please refer to our [Disabling Pop-Up Blockers guide](#).

The eviCore online portal is the quickest, most efficient way to request prior authorization and check authorization status and is available 24/7. By visiting [www.eviCore.com](http://www.eviCore.com) providers can spend their time where it matters most — with their patients!

Phone Request:  
**Phone #: 855-252-1118**  
7:00 a.m. to 7:00p.m.  
Monday - Friday

Faxed Request allowed  
for Texas programs only.  
**Fax #: 800-540-2406**

# eviCore healthcare website

- Point web browser to evicore.com

- Login or Register

A screenshot of the 'Portal Login' form on the eviCore healthcare website. The form is white with a green 'LOGIN' button. It includes fields for 'User ID' and 'Password', each with a 'Forgot' link. There are two checkboxes: 'I agree to HIPAA Disclosure' and 'Remember User ID'. Below the form is a link for 'Register Now' for users who don't have an account. The background of the form is a blurred image of a person's face.

# Creating An Account

\* Required Field

## Web Portal Preference

Please select the Portal that is listed in your provider training material. This selection determines the primary portal that you will be using to submit cases over the web.

Default Portal\*:

## User Information

All Pre-Authorization notifications will be sent to the fax number as provided below. Please make sure you provide valid information.

User Name*:	<input type="text"/>	Address*:	<input type="text"/> <input type="text"/>	Phone*:	<input type="text"/>
Email*:	<input type="text"/>	City*:	<input type="text"/>	Ext:	<input type="text"/>
Confirm Email*:	<input type="text"/>	State*:	<input type="text" value="Select"/> <input type="text" value="v"/>	Fax*:	<input type="text"/>
First Name*:	<input type="text"/>	Zip*:	<input type="text"/>		
Last Name*:	<input type="text"/>	Office Name:	<input type="text"/>		

Next

➤ Select CareCore National or MedSolutions as the **Default Portal**, and complete the user registration form.

➤ Please note: For the MedSolutions portal, you will also need to select the appropriate **Account Type**: Facility, Physician, Billing Office, and Health Plan.

# User Registration-Continued

## USER REGISTRATION

User Access Agreement \*Required

eviCore

Provider/Customer Access Agreement for Web-Based Applications

This Provider/Customer Access Agreement for Web-Based Applications ("Access Agreement") contains the terms and conditions for use by Provider/Customers of the web-based applications provided by eviCore through its Web Site. This Access Agreement applies to Provider/Customer and all employees and/or agents that have access to eviCore's web-based applications by utilizing a User ID and Personal Identification Number ("PIN"), Security Password, or other security device provided by eviCore, hereinafter referred to as "Users."

To obtain access to eviCore's Web Site applications, User must first read and agree to this Access Agreement. After reviewing these documents, User will be asked to accept the Access Agreement by checking the "Accept Terms and Conditions" check box. If User accepts, this will result in a binding contract between User and eviCore, just as if User had physically signed the Access Agreement.

Each and every time User accesses eviCore's web-based applications, User agrees to be bound by this Access Agreement, as it may be amended from time to time.

1. Limited License. Upon acceptance, eviCore grants Provider/Customer a revocable, nonexclusive, and nontransferable limited license to access electronically eviCore's web-based applications only so long as Provider/Customer is currently bound by a Provider/Customer Agreement (as used herein a "Provider/Customer Agreement" is an agreement to provide health care/medical services to members of health plans for which eviCore provides radiological services, whether it is with eviCore directly or said health

## **Minimum documentation requirements:**

- **CPT codes, disc levels, or motion segments involved for planned surgery and ICD-10 codes.**
- **Detailed documentation of the type, duration, and frequency of provider directed non-surgical treatment with response to each with details if less than clinically meaningful improvement to treatment.**
- **Written reports/interpretations of the most recent advanced diagnostic imaging studies by independent radiologist.**
- **Acceptable imaging modalities for purposes of the Spine Surgery guidelines are: CT, MRI and Myelography.**

## **For Spinal Fusion surgery requests:**

- **Documentation of flexion-extension plan X-rays based upon indications for instability and/or other plain X-rays that document failure of instrumentation, fusion, etc.**
- **Documentation of nicotine-free status, as evidenced by either of the following, unless this is an urgent/emergent request, for decompression only without fusion, disc arthroplasty, or when myelopathy is present.**
- **evidenced by blood cotinine lab results of <10ng/mL. (In order to complete the prior authorization process for spinal fusion surgery, allow for sufficient time for submission of lab results performed after the 6-week cessation period.**

# Spine Surgery Requirements continued

---

Some procedures in the eviCore Spine Surgery Guidelines require a trial of epidural steroid injections (ESIs)/selective nerve root blocks (SNRBs) unless there is a documented contraindications to ESIs/SNRBs.

Contraindications to ESIs/SNRBs include the presence of ANY of the following:

- Allergy to the medication to be administered
- A significantly altered or eliminated epidural space (e.g. congenital anatomic anomalies or previous surgery)
- Anticoagulation therapy
- Bleeding disorder
- Localized infection in the region to be injected
- Systemic infection
- Other co-morbidities which could be exacerbated by steroid usage (e.g. poorly controlled hypertension, severe congestive heart failure, diabetes, etc.)

# Joint Surgery Requirements

---

Partial Knee and Total Knee Replacement is considered medically necessary when all of the following criteria have been met:

- **Function-limiting pain at short distances (e.g. walking less than ¼ mile, limiting activity to two city blocks, the equivalent to walking the length of a shopping mall) for at least 3 months duration.**
- **Loss of knee function which interferes with the ability to carry out age appropriate activities of daily living and/or demands of employment.**

Radiographic or arthroscopic findings of either of the following:

- **Severe unicompartamental (medial, lateral, or patellofemoral) degenerative arthritis evidenced by either Large osteophytes, marked narrowing of joint space, severe sclerosis, and definite deformity of bone contour (i.e., Kellgren-Lawrence Grade IV radiographic findings) or Exposed subchondral bone (i.e., Modified Outerbridge Classification Grade IV arthroscopy findings)**
- **Avascular necrosis (AVN) of the femoral condyles and/or proximal tibia.**
- **Intact, stable ligaments, in particular the anterior cruciate ligament**
- **Knee arc of motion (full extension to full flexion) greater than 90 degrees**

Failure of at least 3 months of provider directed non-surgical management.

- **For patients with BMI > 40, there must be failure of a least 6 months of provider directed non-surgical management**
- **Provider directed non-surgical management may be inappropriate. The medical record must clearly document why provider directed non-surgical management is not appropriate.**

Total knee replacement is considered medically necessary for a fracture of the distal femur when conservative management or surgical fixation is not considered a reasonable option.

# Joint Surgery Requirements

The determination of medical necessity for the performance of shoulder surgery is always made on a case by case basis.

Shoulder arthroscopic or open surgical procedures may be considered medically necessary for individuals when surgery is being performed for fracture, tumor, infection or foreign body that has led to or will likely lead to progressive destruction.

Diagnostic Arthroscopy is considered medically necessary as a separate procedure when all of the following criteria have been met:

Function limiting pain (e.g. loss of shoulder function which interferes with the ability to carry out age appropriate activities of daily living and /or demands of employment for at least 6 months in duration.

Individual demonstrates any of the following abnormal shoulder physical examination findings as compared to the non involved side.

- Functionally limited range of motion (active or passive)
- Measurable loss in strength
- Positive Neer Impingement Test or Hawkins-Kennedy Impingement Test.
- Failure of provider directed non-surgical management for at least 3 months in duration.
- Advanced diagnostic imaging study (e.g., MRI; CT) is inconclusive for internal derangement/pathology
- Other potential pathological conditions including, but not limited to: fracture, thoracic outlet syndrome, brachial plexus disorders, referred neck pain, and advanced glenohumeral osteoarthritis have been excluded.

Diagnostic arthroscopy is considered not medically necessary for any other indication or condition.

# Interventional Pain Requirements

---

- **Interventional Pain procedures require a separate pre-service authorization request for each date of service. The patients response to prior interventional pain injections will determine if a subsequent injection is appropriate. \*\*\*Including the response to the prior interventional pain injection in the office notes will help avoid processing delays.**
- **For an epidural injection, a patient must have a radiculopathy or radicular pattern confirmed on imaging or EMG/NCS. For a facet procedure, loading of the joint in extension and lateral rotation is needed. For sacroiliac joint injection, a patient must have 3 or 5 positive stress maneuvers of the sacroiliac joint.**
- **An epidural injection and facet joint injection in the same region is not allowed, except when there is a facet joint cyst compressing the exiting nerve root.**
- **No more than 1 level interlaminar epidural, 1 nerve root selective nerve root block, 2 level therapeutic transforaminal epidural, 3 level facet/medial branch nerve blocks are indicated in a single session.**
- **6 weeks of conservative care is need prior to an epidural steroid injection. 4 weeks of conservative care is needed prior to facet/medial branch nerve blocks and sacroiliac joint injections.**
- **For cervical and thoracic epidural injections, advanced imaging must be performed within the last 12 months.**
- **Fluoroscopic or CT scan image guidance is required for all interventional pain injections.**
- **The limit of diagnostic facet/medial branch nerve blocks is 2 prior to possible radiofrequency ablation. The limit of epidural steroid injections is 3 per episode and 4 per 12 month period.**

# Interventional Pain Requirements continued

---

**Epidural injections require a 2 week outcome prior to preauthorization of a subsequent epidural.  
Radiofrequency ablation of the medial branch nerves from C2 – 3 to L5 – S1 require a 6 week interval.**

**An epidural steroid injection must have a least 2 of the following:**

**50% or greater relief of radicular pain.**

**Increased level of function/physical activity.**

**And or decreased use of medication and/or additional medical services such as Physical Therapy/Chiropractic care.**

**A diagnostic facet/medial branch nerve block must have at least 80% relief from the anesthetic. 2 facet/medial branch nerve blocks with a least 80% relief are needed for radiofrequency ablation.**

**A therapeutic sacroiliac joint injection following a diagnostic joint injection must have >75% pain relief.**

**A repeat therapeutic sacroiliac joint injection must have >75% pain relief and either an increase in level function or reduction in use of pain medication and/or medical services such as PT/Chiropractic care.**
