Service Model

Client Provider Operations

The Client Provider Operations team is responsible for high-level service delivery to our health plan clients as well as ordering and rendering providers nationwide

Client Provider Representatives

Client Provider Representatives are cross-trained to investigate escalated provider and health plan issues.

Client Service Managers

Client Service Managers lead resolution of complex service issues and coordinate with partners for continuous improvement.

Regional Provider Engagement Managers

Regional Provider Engagement Managers are on-the-ground resources who serve as the voice of eviCore to the provider community.

Why Our Service Delivery Model Works

One centralized intake point allows for timely identification, tracking, trending, and reporting of all issues. It also enables eviCore to quickly identify and respond to systemic issues impacting multiple providers.

Complex issues are escalated to resources who are the subject matter experts and can quickly coordinate with matrix partners to address issues at a root-cause level.

Routine issues are handled by a team of representatives who are cross trained to respond to a variety of issues. There is no reliance on a single individual to respond to your needs.
