Services performed in conjunction with an emergency room visit, 23 hour observation, or most inpatient stays (some inpatient procedures may require authorization) are not subject to authorization requirements.

To request an authorization, log onto [www.evicore.com](http://www.evicore.com), to submit your request.

**For urgent requests:** If services are required in less than 48 hours due to medically urgent conditions, please call our toll-free number for expedited authorization reviews. Be sure to tell our representative the authorization is for medically urgent care.

We recommend that ordering physicians secure authorizations and pass the authorization numbers to the rendering facilities at the time of scheduling. Authorizations contain authorization numbers and one or more CPT codes specific to the services authorized. If the service requested is different than what is authorized, the rendering facility must contact us for review and authorization prior to claim submission.
