Utilization Management | Prior Authorization

Holistic Treatment Plan Review

EviCore relies on information about the patient's unique presentation and physician's intended treatment plan to authorize all services.

- Providers specify the cancer type or body part being treated rather than requesting individual CPT and HCPCS codes.
- The intended treatment plan for cancer type is compared to the evidence-based guidelines developed by our Medical Advisory Board.
- For Medicare Cases, LCD and NCDs are followed if there is one applicable to the treatment.
- If a request is authorized or partially authorized, then the requested treatment technique and number of fractions will be provided, and the provider and member will be notified.
- If Image Guidance (IGRT) is requested, it may or may not be approved, separate from the primary treatment technique.

For questions about specific CPT codes that are generally included with each episode of care, please reference the [EviCore Radiation Therapy Coding Guidelines](#).

Necessary Information for Prior Authorization | Radiation Oncology

To obtain prior authorization on the very first submission, the provider submitting the request will need to gather information within four categories:

Member

- Health Plan ID
- Member name
- Date of birth (DOB)

Referring (Ordering) Physician

- Physician name
- National provider identifier (NPI)
- Phone & fax number

Rendering Facility

- Facility name
- Address
- National provider identifier (NPI)
- Tax identification number (TIN)
- Phone & fax number

Supporting Clinical

- Pertinent clinical information to substantiate medical necessity for the requested service
- CPT/HCPCS Code(s)
- Diagnosis Code(s)
- Previous test results

Clinical Information Needed

If clinical information is needed, please be able to supply the following information:

- Patient's clinical presentation.
- Diagnosis Codes.
- Type and duration of treatments performed to date for the diagnosis
- Disease-Specific Clinical Information:
 - Primary site of treatment (e.g. Breast Cancer, Prostate Cancer)
 - Diagnosis at onset
 - Stage of disease
 - Clinical presentation
 - Histopathology
 - Comorbidities
 - Patient risk factors
 - Performance status
 - Genetic alterations
 - Line of treatment
- Specific to Radiation Oncology:
 - Treatment plan: technique, phases, number of treatment sessions
 - Radiation Oncology consultation note
 - Treatment comparative plans

Insufficient Clinical | Additional Documentation Needed

If during case build all required pieces of documentation are not received, or are insufficient for EviCore to reach a determination, the following will occur:

A hold letter will be faxed to the requesting provider requesting additional documentation.

The provider must submit the additional information to EviCore.

EviCore will review the additional documentation and reach a determination.

The hold letter will inform the provider about what clinical information is needed as well as the **date by which it is needed**.

Requested information must be received within the timeframe as specified in the hold letter, or EviCore will render a determination based on the original submission.

Determination notifications will be sent.

Pre-Decision Options | Medicare Members

I've received a request for additional clinical information. What's next?

Before a denial decision is issued on Medicare cases, EviCore will notify providers telephonically and in writing. From there, additional clinical information must be submitted to EviCore in advance of the due date referenced.

There are three ways to supply the requested information:

1. **Fax to 800-540-2406.**
2. **Upload** directly into the case via the provider portal at [EviCore.com](https://www.EviCore.com).
3. **Request a Pre-Decision Clinical Consultation.**
This consultation can be requested via the EviCore website, and must occur prior to the due date referenced in the notification.

PLEASE NOTE: If the additional clinical information is faxed/uploaded, that clinical is what is used for the review and determination. The case is not held further for a Pre-Decision Clinical Consultation, even if the due date has not yet lapsed.

Once the determination is made, notifications will go to the provider and member, and status will be available on [EviCore.com](https://www.EviCore.com).

Prior Authorization Outcomes, Special Considerations & Post-Decision Options

Prior Authorization Outcomes

Determination Outcomes:

- **Approved Requests:** Authorizations are valid for **14-180 calendar days** from the date of approval. Please refer to the authorization notification for specific timeframe.
- **Denied Requests:** Based on evidence-based guidelines, if a request is determined as inappropriate, a notification with the rationale for the decision and post decision/ appeal rights will be issued.

Notifications:

- Authorization letters will be faxed to the ordering provider.
- Web initiated cases will receive e-notifications when a user opts to receive.
- Members will receive a letter by mail.
- Approval information can be printed on demand from the EviCore portal: www.EviCore.com

Special Circumstances | Alternative Recommendations

An alternative treatment plan recommendation may be offered based on EviCore's evidence-based clinical guidelines.

When this occurs, the ordering provider can accept the alternative recommendation by building a new case.

Providers must contact EviCore to accept the alternative recommendation before the start of treatment.

Special Circumstances | Authorization Updates

We understand that treatment plans can sometimes change.

- If updates are needed for an existing authorization, providers can contact EviCore by phone.
- **Changes in treatment type or technique** will require another Medical Necessity review on a new authorization. If approved, the original case will be withdrawn.
- If there is a **change in technique(s) or number of fractions** and this update is not communicated, it may impact claim payment. The billed services should align with the requested and approved treatment plan.
- If the **authorization time span will not cover the entirety of the radiation therapy treatment plan**, EviCore should be notified before the services are billed by the provider.

Post-Decision Options | Commercial Members

My case has been denied. What's next?

Your determination letter is the best immediate source of information to assess what options exist on a case that has been denied. You may also call EviCore at **866-686-2649** to speak with an agent who can provide available option(s) and instruction on how to proceed.

Alternatively, select **All Post Decisions** under the **Authorization Lookup** function on [EviCore.com](https://www.evicore.com) to see available options.

Reconsiderations

- Although EviCore **does not** offer a reconsideration option for Independence Blue Cross commercial members, providers can request a Clinical Consultation with an EviCore medical director to better understand the reason for denial.

Appeals

- EviCore **will not** process first-level appeals. Please refer to the denial letter for instructions.

Post-Decision Options | Medicare Members

My case has been denied. What's next?

Clinical Consultation

- Providers can request a Clinical Consultation with an EviCore physician to better understand the reason for denial.
- Once a denial decision has been made, however, the decision cannot be overturned via Clinical Consultation.

Reconsideration

- Medicare cases **do not** include a reconsideration option.

Appeals

- EviCore **will not** process first-level appeals for Medicare members.
- Please refer to the denial notice for instructions and requirements to submit an appeal.

Special Circumstances

Retrospective (Retro) Authorization Requests

- Retrospective requests may be made within **30 calendar days** from the date of service.
- Reviewed for clinical urgency and medical necessity.
- Retro requests are processed within **30 calendar days**.
- When authorized, the start date will be the submitted date of service.

Urgent Prior Authorization Requests

- EviCore uses the NCQA/URAC definition of **urgent**: when a delay in decision making may seriously jeopardize the life or health of the member.
- Can be initiated on provider portal or by phone.
- Urgent cases are typically reviewed within 24 to 72 hours.
