Provider Experience – Case Submission

The screenshot displays the EviCore healthcare portal interface. At the top left is the EviCore logo with 'By EVERNORTH' underneath. A navigation menu includes 'About', 'Solutions', 'Patients', 'Providers' Hub', 'Insights', and 'Careers'. On the right, there is a 'PROVIDERS:' dropdown menu with a checked option for 'Check Prior Authorization Status', and a 'Login' button with a user icon. Below the navigation is a large banner image of healthcare professionals in a clinical setting, with the text 'About EviCore' overlaid. On the right side of the banner, a login form is visible, featuring input fields for 'User ID' and 'Password', each with a 'Forgot' link. Below the fields are checkboxes for 'I agree to HIPAA Disclosure' and 'Remember User ID', followed by a 'LOGIN' button and a 'Don't have an account? Register Now' link.

Proceed to Clinical Information

You are about to enter the clinical information collection phase of the authorization process.

After answering the clinical question(s) on each screen you will need to hit the "Submit" button. For all of the clinical questions you must hit "Submit" before exiting the system. You will be asked to attest to the clinical information that you have provided. Hit "Submit" and your request for a prior authorization will be submitted for review.

Your answers to previous questions will be displayed on the lower portion of the screen. If you made an error during the clinical data collection process you can click on the question. The system will ask that you answer the question again and subsequent questions. You can use the "Finish Later" button, for Standard/Routines cases only, to save information and return to this case at a later time. This will save all case information recorded up to but not including the current screen.

Failure to formally submit your request by clicking the "Submit" button after the attestation will cause the request for a prior authorization to expire with no additional correspondence.

Urgency Indicator

If the case you are submitting is found NOT to meet one of the two conditions below, your case will be processed as a standard/routine, non Urgent request. If you have clinical information and this request meets the criteria for urgent, please indicate below.

In order for eviCore to process this case as clinically urgent you must upload clinical documentation relevant to this case. If you are unable to upload clinical documentation at this time contact eviCore to process this case as urgent.

Please indicate if any of the following criteria are true regarding urgency of this request :

- A delay in care could seriously jeopardize the life or health of the patient or patient’s ability to regain maximum function.
- A delay in care would subject the member to severe pain that cannot be adequately managed without the care or treatment requested in the prior authorization.
- None of the above

Proceed to Clinical Information

The National Comprehensive Cancer Network® (NCCN®) believes that the best management for any patient with cancer is in a clinical trial and that participation in clinical trials is especially encouraged. In some situations, trial participation may not be included in the patient's benefit plan design.

The following list represents potential treatment clinical trial matches in active and open enrollment status for this patient based on a search of the National Cancer Institute's (NCI) clinical trial database using the information gathered in this prior authorization request.

Trials are sorted in order of proximity between the patient's ZIP code and the nearest participating provider. This search result is limited to a maximum of 50. Please visit the NCI website www.cancer.gov if you would like to expand your search. By default, the following search result is filtered to Phase 2 and 3 clinical trials. You may customize the search result to particular states and clinical trial phases using the filters below.

If you would like more information on any of the clinical trials displayed, select the clinical trial(s) of interest, using the checkbox on the left and click "SUBMIT" to have more information sent to you. You may also click on the corresponding Trial ID and a new browser window will open with more information on that trial.

If you do not wish to receive more information on any clinical trials, click "SUBMIT" to continue without selecting any of the checkboxes.

If your patient's tumor contains a genetic abnormality, the MATCH (NCT02465060) and TAPUR (NCT02693535) clinical trials offer investigational targeted drug therapies for a wide variety of cancers.
