Solution Overview

Blue Cross Blue Shield of Michigan Prior Authorization Services

Applicable Membership:

- Commercial PPO
- Medicare Advantage PPO

Prior authorization applies to the following services

- Radiation Oncology

Prior authorization does NOT apply to services performed in

- Emergency Rooms
- Observation Services
- Inpatient Stays

It is the responsibility of the ordering provider to request prior authorization approval for services.

Holistic Treatment Plan Review | Radiation Therapy

EviCore relies on information about the patient's unique presentation and physician's intended treatment plan to authorize all services.

- Providers specify the cancer type or body part being treated rather than requesting individual CPT and HCPCS codes.
- The intended treatment plan for cancer type is compared to the evidence-based guidelines developed by our Medical Advisory Board.
- For Medicare Cases, LCD and NCDs are followed if there is one applicable to the treatment.
- If a request is authorized or partially authorized, then the requested treatment technique and number of fractions will be provided, and the provider and member will be notified.
- If Image Guidance (IGRT) is requested, it may or may not be approved, separate from the primary treatment technique.

For questions about specific CPT codes that are generally included with each episode of care, please reference the [EviCore Radiation Therapy Coding Guidelines](#).

Submitting Requests

How to Request Prior Authorization

The EviCore Provider Portal is the easiest, most efficient way to request clinical reviews and check statuses.

- **Save time:** Quicker process than requests by phone or fax.
- **Available 24/7.**
- **Save your progress:** If you need to step away, you can save your progress and resume later.
- **Upload additional clinical information:** No need to fax supporting clinical documentation; it can be uploaded on the portal.
- **View and print determination information:** Check case status in real time.
- **Dashboard:** View all recently submitted cases.
- **E-notification:** Opt to receive email notifications when there is a change to case status.
- **Duplication feature:** If you are submitting more than one request, you can duplicate information to expedite submissions.

Utilization Management | Prior Authorization

Necessary Information for Prior Authorization | Radiation Oncology

To obtain prior authorization on the very first submission, the provider submitting the request will need to gather information within four categories:

Member

- Health Plan ID
- Member name
- Date of birth (DOB)

Referring (Ordering) Physician

- Physician name
- National provider identifier (NPI)
- Phone & fax number

Rendering Facility

- Facility name
- Address
- National provider identifier (NPI)
- Tax identification number (TIN)
- Phone & fax number

Supporting Clinical

- Pertinent clinical information to substantiate medical necessity for the requested service
- CPT/HCPCS Code(s)
- Diagnosis Code(s)
- Previous test results

Clinical Information Needed

If clinical information is needed, please be able to supply the following information:

- Patient's clinical presentation.
- Diagnosis Codes.
- Type and duration of treatments performed to date for the diagnosis
- Disease-Specific Clinical Information:
 - Primary site of treatment (e.g. Breast Cancer, Prostate Cancer)
 - Diagnosis at onset
 - Stage of disease
 - Clinical presentation
 - Histopathology
 - Comorbidities
 - Patient risk factors
 - Performance status
 - Genetic alterations
 - Line of treatment
- Specific to Radiation Oncology:
 - Treatment plan: technique, phases, number of treatment sessions
 - Radiation Oncology consultation note
 - Treatment comparative plans

Insufficient Clinical | Additional Documentation Needed

If during case build all required pieces of documentation are not received, or are insufficient for EviCore to reach a determination, the following will occur:

Providing Additional Information

I've received a request for additional clinical information. What's next?

There are three ways to supply the requested information to EviCore for review:

- EviCore will notify providers telephonically and in writing before a denial decision is issued on Medicare cases.
 - Additional clinical information must be submitted to EviCore prior to the due date referenced in the request.
- Additional clinical information should be submitted to EviCore for consideration per the instructions received, clinical can be **faxed** to **800-540-2406** or **uploaded** directly into the case via the provider portal at www.EviCore.com.
- Alternatively, providers can choose to request a **Pre-Decision Clinical Consultation** instead of submitting additional clinical information. This consultation can be requested via the EviCore website (see the end of this presentation for instructions).
 - The Pre-Decision Clinical Consultation must occur prior to the due date referenced in the request.
- If the additional clinical information is faxed/uploaded, that clinical is what is used for the review and determination. The case is **not** held further for a Pre-Decision Clinical Consultation, even if the due date has not yet lapsed.
- Once the determination is made, notifications will go out to the provider and member, and status will be available on www.EviCore.com.

Prior Authorization Outcomes, Special Considerations & Post-Decision Options

Prior Authorization Outcomes

Approvals and Denials

Approved Requests

- Commercial requests are processed within **2 business days** after receipt of all necessary clinical information.
- Medicare requests are processed within **14 calendar days** after receipt of all necessary clinical information.

Denied Requests

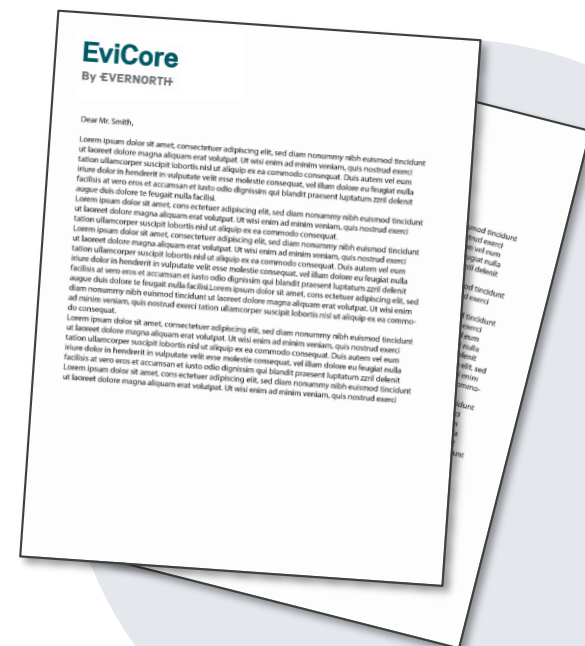

- Communication of the denial determination and rationale.
- Letter contains reconsideration options based on the members health plan and line of business.
- Instructions on how to request a Clinical Consultation (Peer-to-Peer).

Authorization Letter

- The letter will be faxed to the ordering provider.
- The member will receive the letter by mail.
- Approval information can be printed on demand from the EviCore portal.

Denial Letter

- The letter will be faxed to the ordering provider.
- The member will receive the letter in the mail.
- The letter will contain the denial rationale and reconsideration options and instructions.

Post-Decision Options | Commercial Members

My case has been denied. What's next?

Your determination letter is the best immediate source of information to assess what options exist on a case that has been denied.

You may also call EviCore at **877-917-2583** to speak with an agent who can provide available option(s) and instruction on how to proceed.

Alternatively, select **All Post Decisions** under the authorization lookup function on [EviCore.com](https://www.evicore.com) to see available options.

Reconsiderations

- Reconsiderations must be requested within **14 calendar days** of the determination date.
- Reconsiderations can be requested in writing or verbally via a Clinical Consultation with an EviCore physician.

Appeals

- EviCore **will** process first-level appeals.
- Appeal requests must be submitted to EviCore within **180 calendar days** from the initial determination date.
- A written notice of the appeal decision will be mailed to the member and faxed to the ordering provider.

Post-Decision Options | Medicare Members

My case has been denied. What's next?

Clinical Consultation

- Providers can request a clinical consultation with an EviCore physician to better understand the reason for denial.
- Once a denial decision has been made, however, the decision cannot be overturned via clinical consultation.

Reconsideration

- Medicare cases do not include a reconsideration option

Appeals

- EviCore **will not** process first-level appeals.
- Please refer to the denial notice for instructions and requirements to submit an appeal.

Special Circumstances

Retrospective (Retro) Authorization Requests

- Must be submitted within **365 calendar days** from the date of services.
- Reviewed for **clinical urgency** and medical necessity.
- When authorized, the start date will be the submitted date of service.
- Clinical submitted for retrospective review should include:
 - The requested number of visits and date range.
 - Information from patient-reported functional outcome measures, progress notes, and/or clinical worksheets.

Urgent Prior Authorization Requests

- EviCore uses the NCQA/URAC definition of **urgent**: when a delay in decision-making may seriously jeopardize the life or health of the member.
- Can be initiated on provider portal or by phone.
- Urgent cases are typically reviewed within 24 to 72 hours.

Special Circumstances | Alternative Recommendations

An alternative treatment plan recommendation may be offered based on EviCore's evidence-based clinical guidelines.

When this occurs, the ordering provider can accept the alternative recommendation by building a new case.

Providers must contact EviCore to accept the alternative recommendation **before** the start of treatment.

Special Circumstances | Authorization Updates

We understand treatment plans can sometimes change.

- If updates are needed for an existing authorization, providers should contact EviCore by phone.
- **The following updates will require contacting EviCore:**
 - Modification to the technique(s)
 - Addition of Image Guided Radiation Therapy (IGRT)
 - Additional treatment fractions or phases
 - Change to the cancer type (or non-cancerous) indicated during the case build process
 - Modification to the authorized timespan
- **Changes in treatment plan** will require another Medical Necessity review on a new authorization. If approved, the original case will be withdrawn.
- Claims payment may be impacted if these updates are not communicated to EviCore. The billed services should align with the requested and approved treatment plan.
- If the **authorization time span will not cover the entirety** of the **treatment**, EviCore should be notified before the impacted services are billed by the provider.
