Holistic Treatment Plan Review |
Radiation Oncology

EviCore relies on information about the patient's unique presentation and physician's intended treatment plan to authorize all services.

- Providers specify the cancer type or body part being treated rather than requesting individual CPT and HCPCS codes.

- The intended treatment plan for the diagnosis is compared to the evidence-based guidelines developed by our Medical Advisory Board.

- For Medicare Cases, LCD and NCDs are followed if there is one applicable to the treatment.

- Of the requested treatment technique and number of fractions, the approved and/or denied technique and number of fractions will be communicated to the provider and member.

- If Image Guidance (IGRT) is requested, it may or may not be approved, separate from the primary treatment technique.

For questions about billing best practices or about the clinical guidelines utilized by EviCore, please visit the resource page on eviCore.com.   Go to: eviCore.com → resources → clinical guidelines → Radiation Oncology → Search for "Priority Health" →

Insufficient Clinical | Additional Documentation Needed

If during case build all required pieces of documentation are not received, or are insufficient for EviCore to reach a determination, the following will occur:

A hold letter will be faxed to the requesting provider requesting additional documentation.	The provider must submit the additional information to EviCore.	EviCore will review the additional documentation and reach a determination.
The hold letter will inform the provider about what clinical information is needed as well as the **date by which it is needed.**	Requested information must be received within the timeframe as specified in the hold letter, or EviCore will render a determination based on the original submission.	Determination notifications will be sent.

Prior Authorization Outcomes, Special Considerations & Post-Decision Options

Prior Authorization Outcomes

Determination Outcomes:

- **Approved Requests: Please refer to the authorization notification for specific timeframe.**
  - **Medical Oncology** - Authorizations are valid for **240-425 calendar days** from the date of approval.
  - **Radiation Oncology** - Authorizations are valid for up to **45-240 calendar days** from the date of approval.
- **Partially Approved Requests:** In instances where multiple CPT codes are requested, some may be approved and some denied. In these instances, the determination letter will specify what has been approved as well as post decision options for denied codes, including denied Site of Care (if applicable).
- **Denied Requests:** Based on evidence-based guidelines, if a request is determined as inappropriate, a notification with the rationale for the decision and post decision/ appeal rights will be issued.

Notifications:

- Authorization letters will be faxed to the ordering provider.
- Web initiated cases will receive e-notifications when a user opts to receive.
- Members will receive a letter by mail.
- Approval information can be printed on demand from the EviCore portal: www.EviCore.com

EviCore
By EVERNORTH

Special Circumstances

Alternative Recommendations (Radiation Oncology Only)

- An alternative recommendation may be offered, based on EviCore's evidence-based clinical guidelines.

- The ordering provider can either accept the alternative recommendation or request a reconsideration for the original request.

- Providers have up to **14 calendar days** to contact EviCore to accept the alternative recommendation.

Authorization Update

- If updates are needed on an existing authorization, you can contact EviCore by phone at **888-444-6178**.

- While EviCore needs to know if changes are made to the approved request, any change could result in the need for a separate clinical review and require a new request (and the original approved request would need to be withdrawn).

- If the authorization is not updated, it may result in a claim denial.

- Once a denial decision has been made, however, the decision cannot be overturned via Clinical Consultation.

Reconsideration

- Medicare cases **do not** include a reconsideration option.

Appeals

- EviCore **will not** process first-level appeals for Medicare members.
