**Spine CPT Code List**

| Category      | CPTCode | CPT® Code Description                                                                                                                                                                                                                                                               |
|---------------|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Spine Surgery | 20930   | Allograft, Morselized, Or Placement Of Osteopromotive Material, For Spine Surgery Only (List Separately In Addition To Code For Primary Procedure)                                                                                                                                  |
| Spine Surgery | 20931   | Allograft, Structural, For Spine Surgery Only (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                                           |
| Spine Surgery | 20936   | Autograft For Spine Surgery Only (Includes Harvesting The Graft); Local (Eg, Ribs, Spinous Process, Or Laminar Fragments) Obtained From Same Incision (List Separately In Addition To Code For Primary Procedure)                                                                   |
| Spine Surgery | 20937   | Autograft For Spine Surgery Only (Includes Harvesting The Graft); Morselized (Through Separate Skin Or Fascial Incision) (List Separately In Addition To Code For Primary Procedure)                                                                                                |
| Spine Surgery | 20938   | Autograft For Spine Surgery Only (Includes Harvesting The Graft); Structural, Bicortical Or Tricortical (Through Separate Skin Or Fascial Incision) (List Separately In Addition To Code For Primary Procedure)                                                                     |
| Spine Surgery | 20974   | Electrical Stimulation To Aid Bone Healing; Non Invasive (Nonoperative)                                                                                                                                                                                                             |
| Spine Surgery | 22206   | Osteotomy of spine, posterior or posterolateral approach, 3 columns, 1 vertebral segment (eg, pedicle/vertebral body subtraction); thoracic                                                                                                                                         |
| Spine Surgery | 22207   | Osteotomy of spine, posterior or posterolateral approach, 3 columns, 1 vertebral segment (eg, pedicle/vertebral body subtraction); lumbar                                                                                                                                           |
| Spine Surgery | 22208   | Osteotomy of spine, posterior or posterolateral approach, 3 columns, 1 vertebral segment (eg, pedicle/vertebral body subtraction); each additional vertebral segment (List separately in addition to code for primary procedure)                                                    |
| Spine Surgery | 22210   | Osteotomy of spine, posterior or posterolateral approach, 1 vertebral segment; cervical                                                                                                                                                                                             |
| Spine Surgery | 22212   | Osteotomy of spine, posterior or posterolateral approach, 1 vertebral segment; thoracic                                                                                                                                                                                             |
| Spine Surgery | 22214   | Osteotomy of spine, posterior or posterolateral approach, 1 vertebral segment; lumbar                                                                                                                                                                                               |
| Spine Surgery | 22216   | Osteotomy of spine, posterior or posterolateral approach, 1 vertebral segment; each additional vertebral segment (List separately in addition to primary procedure)                                                                                                                 |
| Spine Surgery | 22220   | Osteotomy of spine, including discectomy, anterior approach, single vertebral segment; cervical                                                                                                                                                                                     |
| Spine Surgery | 22222   | Osteotomy of spine, including discectomy, anterior approach, single vertebral segment; thoracic                                                                                                                                                                                     |
| Spine Surgery | 22224   | Osteotomy of spine, including discectomy, anterior approach, single vertebral segment; lumbar                                                                                                                                                                                       |
| Spine Surgery | 22226   | Osteotomy of spine, including discectomy, anterior approach, single vertebral segment; each additional vertebral segment (List separately in addition to code for primary procedure)                                                                                                |
| Spine Surgery | 22510   | Percutaneous Vertebroplasty(Bone Biopsy Included When Performed), 1 Vertebral Body, Unilateral Or Bilateral Injection, Inclusive Of All Imaging Guidance; Cervicothoracic                                                                                                           |
| Spine Surgery | 22511   | Percutaneous Vertebroplasty(Bone Biopsy Included When Performed), 1 Vertebral Body, Unilateral Or Bilateral Injection, Inclusive Of All Imaging Guidance; Lumbosacral                                                                                                               |
| Spine Surgery | 22512   | Percutaneous Vertebroplasty(Bone Biopsy Included When Performed), 1 Vertebral Body, Unilateral Or Bilateral Injection, Inclusive Of All Imaging Guidance; Each Additional Cervicothoracic Or Lumbosacral Vertebral Body( List Separately In Addition To Code For Primary Procedure) |
| Spine Surgery | 22513   | Percutaneous Vertebral Augmentation, Including Cavity Creation(Fracture Reduction And Bone Biopsy Included When Performed) Using Mechanical Device (Eg, Kyphoplasty), 1 Vertebral Body, Unilateral Or Bilateral Cannulation, Inclusive Of All Imaging Guidance; Thoracic            |
| Spine Surgery | 22514   | Percutaneous Vertebral Augmentation, Including Cavity Creation (Fracture Reduction And Bone Biopsy Included When Performed) Using Mechanical Device (Eg, Kyphoplasty), 1 Vertebral Body, Unilateral, Or Bilateral Cannulation, Inclusive Of All Imaging Guidance; Lumbar            |

| Category      | CPTCode | CPT® Code Description                                                                                                                                                                                                                                                                                                                                                       |
|---------------|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Spine Surgery | 22515   | Percutaneous Vertebral Augmentation, Including Cavity Creation(Fracture Reduction And Bone Biopsy Included When Performed) Using Mechanical Device(Eg, Kyphoplasty), 1 Vertebral Body, Unilateral Or Bilateral Cannulation, Inclusive Of All Imaging Guidance; Each Additional Thoracic Or Lumbar Vertebral Body(List Separately In Addition To Code For Primary Procedure) |
| Spine Surgery | 22532   | Arthrodesis, lateral extracavitary technique, including minimal discectomy to prepare interspace (other than for decompression); thoracic                                                                                                                                                                                                                                   |
| Spine Surgery | 22533   | Arthrodesis, Lateral Extracavitary Technique, Including Minimal Discectomy To Prepare Interspace (Other Than For Decompression); Lumbar                                                                                                                                                                                                                                     |
| Spine Surgery | 22534   | Arthrodesis, Lateral Extracavitary Technique, Including Minimal Discectomy To Prepare Interspace (Other Than For Decompression); Thoracic Or Lumbar, Each Additional Vertebral Segment (List Separately In Addition To Code For Primary Procedure)                                                                                                                          |
| Spine Surgery | 22548   | ARTHRODESIS, ANTERIOR TRANSORAL OR EXTRAORAL TECHNIQUE, CLIVUS-C1-C2 (ATLAS-AXIS), WITH OR WITHOUT EXCISION OF ODONTOID PROCESS                                                                                                                                                                                                                                             |
| Spine Surgery | 22551   | Arthrodesis, Anterior Interbody, Including Disc Space Preparation, Discectomy, Osteophyctomy And Decompression Of Spinal Cord And/Or Nerve Roots; Cervical Below C2                                                                                                                                                                                                         |
| Spine Surgery | 22552   | Arthrodesis, Anterior Interbody, Including Disc Space Preparation, Discectomy, Osteophyctomy And Decompression Of Spinal Cord And/Or Nerve Roots; Cervical Below C2, Each Additional Interspace (List Separately In Addition To Code For Separate Procedure)                                                                                                                |
| Spine Surgery | 22554   | Arthrodesis, Anterior Interbody Technique, Including Minimal Discectomy To Prepare Interspace (Other Than For Decompression); Cervical Below C2                                                                                                                                                                                                                             |
| Spine Surgery | 22556   | Arthrodesis, anterior interbody technique, including minimal discectomy to prepare interspace (other than for decompression); thoracic                                                                                                                                                                                                                                      |
| Spine Surgery | 22558   | Arthrodesis, Anterior Interbody Technique, Including Minimal Discectomy To Prepare Interspace (Other Than For Decompression); Lumbar                                                                                                                                                                                                                                        |
| Spine Surgery | 22585   | Arthrodesis, Anterior Interbody Technique, Including Minimal Discectomy To Prepare Interspace (Other Than For Decompression); Each Additional Interspace (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                        |
| Spine Surgery | 22590   | ARTHRODESIS, POSTERIOR TECHNIQUE, CRANIOCERVICAL (OCCIPUT-C2)                                                                                                                                                                                                                                                                                                               |
| Spine Surgery | 22595   | Arthrodesis, posterior technique, atlas-axis (C1-C2)                                                                                                                                                                                                                                                                                                                        |
| Spine Surgery | 22600   | Arthrodesis, Posterior Or Posterolateral Technique, Single interspace, Cervical Below C2 Segment                                                                                                                                                                                                                                                                            |
| Spine Surgery | 22610   | Arthrodesis, posterior or posterolateral technique, single interspace; thoracic (with lateral transverse technique, when performed)                                                                                                                                                                                                                                         |
| Spine Surgery | 22612   | Arthrodesis, Posterior Or Posterolateral Technique, Single Interspace; Lumbar (With Lateral Transverse Technique, When Performed)                                                                                                                                                                                                                                           |
| Spine Surgery | 22614   | Arthrodesis, Posterior Or Posterolateral Technique, Single Interspace; Each Additional Vertebral Segment (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                                                                        |
| Spine Surgery | 22630   | Arthrodesis, Posterior Interbody Technique, Including Laminectomy And/Or Discectomy To Prepare Interspace (Other Than For Decompression), Single Interspace; Lumbar                                                                                                                                                                                                         |
| Spine Surgery | 22632   | Arthrodesis, Posterior Interbody Technique, Including Laminectomy And/Or Discectomy To Prepare Interspace (Other Than For Decompression), Single Interspace; Each Additional Interspace (List Separately In Addition To Code For Primary Procedure)                                                                                                                         |
| Spine Surgery | 22633   | Arthrodesis, Combined Posterior Or Posterolateral Technique With Posterior Interbody Technique Including Laminectomy And/Or Discectomy Sufficient To Prepare Interspace (Other Than For Decompression), Single Interspace; Lumbar                                                                                                                                           |
| Spine Surgery | 22634   | Arthrodesis, combined posterior or posterolateral technique with posterior interbody technique including laminectomy and/or discectomy sufficient to prepare interspace (other than for decompression), single interspace; each additional interspace (List separately in addition to code for primary procedure)                                                           |
| Spine Surgery | 22800   | ARTHRODESIS, POSTERIOR, FOR SPINAL DEFORMITY, WITH OR WITHOUT CAST; UP TO 6 VERTEBRAL SEGMENTS                                                                                                                                                                                                                                                                              |
| Spine Surgery | 22802   | ARTHRODESIS, POSTERIOR, FOR SPINAL DEFORMITY, WITH OR WITHOUT CAST; 7 TO 12 VERTEBRAL SEGMENTS                                                                                                                                                                                                                                                                              |
| Spine Surgery | 22804   | ARTHRODESIS, POSTERIOR, FOR SPINAL DEFORMITY, WITH OR WITHOUT CAST; 13 OR MORE VERTEBRAL SEGMENT                                                                                                                                                                                                                                                                            |
| Spine Surgery | 22808   | ARTHRODESIS, ANTERIOR, FOR SPINAL DEFORMITY, WITH OR WITHOUT CAST; 2 TO 3 VERTEBRAL SEGMENTS                                                                                                                                                                                                                                                                                |
| Spine Surgery | 22810   | ARTHRODESIS, ANTERIOR, FOR SPINAL DEFORMITY, WITH OR WITHOUT CAST; 4 TO 7 VERTEBRAL SEGMENTS                                                                                                                                                                                                                                                                                |
| Spine Surgery | 22812   | ARTHRODESIS, ANTERIOR, FOR SPINAL DEFORMITY, WITH OR WITHOUT CAST; 8 OR MORE VERTEBRAL SEGMENTS                                                                                                                                                                                                                                                                             |
| Spine Surgery | 22818   | Kyphectomy, circumferential exposure of spine and resection of vertebral segment(s) (including body and posterior elements); single or 2 segments                                                                                                                                                                                                                           |
| Spine Surgery | 22819   | Kyphectomy, circumferential exposure of spine and resection of vertebral segment(s) (including body and posterior elements); 3 or more segments                                                                                                                                                                                                                             |
| Spine Surgery | 22830   | Exploration of spinal fusion                                                                                                                                                                                                                                                                                                                                                |

| Category      | CPTCode | CPT® Code Description                                                                                                                                                                                                                                                                                                                                                                                |
|---------------|---------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Spine Surgery | 22840   | Posterior non-segmental instrumentation (eg, Harrington rod technique, pedicle fixation across 1 interspace, atlantoaxial transarticular screw fixation, sublaminar wiring at C1, facet screw fixation) (List separately in addition to code for primary procedure)                                                                                                                                  |
| Spine Surgery | 22841   | Internal Spinal Fixation By Wiring Of Spinous Processes (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                                                                                                                                                  |
| Spine Surgery | 22842   | Posterior Segmental Instrumentation (Eg, Pedicle Fixation, Dual Rods With Multiple Hooks And Sublaminar Wires); 3 To 6 Vertebral Segments (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                                                                |
| Spine Surgery | 22843   | Posterior Segmental Instrumentation (Eg, Pedicle Fixation, Dual Rods With Multiple Hooks And Sublaminar Wires); 7 To 12 Vertebral Segments (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                                                               |
| Spine Surgery | 22844   | Posterior Segmental Instrumentation (Eg, Pedicle Fixation, Dual Rods With Multiple Hooks And Sublaminar Wires); 13 Or More Vertebral Segments (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                                                            |
| Spine Surgery | 22845   | Anterior Instrumentation; 2 To 3 Vertebral Segments (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                                                                                                                                                      |
| Spine Surgery | 22846   | Anterior Instrumentation; 4 To 7 Vertebral Segments (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                                                                                                                                                      |
| Spine Surgery | 22847   | Anterior Instrumentation; 8 Of More Vertebral Segments (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                                                                                                                                                   |
| Spine Surgery | 22848   | Pelvic Fixation (Attachment Of Caudal End Of Instrumentation To Pelvic Bony Structures) Other Than Sacrum (List Separately In Addition To Code For Primary Procedure)                                                                                                                                                                                                                                |
| Spine Surgery | 22849   | REINSERTION OF SPINAL FIXATION DEVICE                                                                                                                                                                                                                                                                                                                                                                |
| Spine Surgery | 22853   | Insertion Of Interbody Biomechanical Device(S) (Eg, Synthetic Cage, Mesh) With Integral Anterior Instrumentation For Device Anchoring (Eg, Screws, Flanges), When Conjunction With Interbody Arthrodesis, Each Interspace (List Performed, To Intervertebral Disc Space In Conjunction With Interbody Arthrodesis, Each Interspace (List Separately In Addition To Code For Primary Procedure)       |
| Spine Surgery | 22854   | Insertion Of Intervertebral Biomechanical Device(S) (Eg, Synthetic Cage, Mesh) With Integral Anterior Instrumentation For Device Anchoring (Eg, Screws, Flanges), When Performed, To Vertebral Corpectomy(Ies) (Vertebral Body Resection, Partial Or Complete) Defect, In Conjunction With Interbody Arthrodesis, Each Contiguous Defect (List Separately In Addition To Code For Primary Procedure) |
| Spine Surgery | 22856   | Total Disc Arthroplasty (Artificial Disc), Anterior Approach, Including Discectomy With End Plate Preparation (Includes Osteophytectomy For Nerve Root Or Spinal Cord Decompression And Microdissection), Single Interspace, Cervical                                                                                                                                                                |
| Spine Surgery | 22857   | Total Disc Arthroplasty (Artificial Disc), Anterior Approach, Including Discectomy To Prepare Interspace (Other Than For Decompression), Single Interspace, Lumbar                                                                                                                                                                                                                                   |
| Spine Surgery | 22858   | Total Disc Arthroplasty (Artificial Disc), Anterior Approach, Including Discectomy With End Plate Preparation (Includes Osteophytectomy For Nerve Root Or Spinal Cord Decompression And Microdissection); Second Level, Cervical (List Separately In Addition To Code For Primary Procedure)                                                                                                         |
| Spine Surgery | 22859   | Insertion Of Intervertebral Biomechanical Device(S) (Eg, Synthetic Cage, Mesh, Methylnmethacrylate) To Intervertebral Disc Space Or Vertebral Body Defect Without Interbody Arthrodesis, Each Contiguous Effect (List Separately In Addition To Code For Primary Procedure)                                                                                                                          |
| Spine Surgery | 22860   | Total disc arthroplasty (artificial disc), anterior approach, including discectomy to prepare interspace (other than for decompression); second interspace, lumbar (List separately in addition to code for primary procedure)                                                                                                                                                                       |
| Spine Surgery | 22861   | Revision Including Replacement Of Total Disc Arthroplasty (Artificial Disc), Anterior Approach, Single Interspace; Cervical                                                                                                                                                                                                                                                                          |
| Spine Surgery | 22862   | Revision Including Replacement Of Total Disc Arthroplasty (Artificial Disc), Anterior Approach, Single Interspace; Lumbar                                                                                                                                                                                                                                                                            |
| Spine Surgery | 27278   | Arthrodesis, sacroiliac joint, percutaneous, with image guidance, including placement of intra-articular implant(s) (eg, bone allograft[s], synthetic device[s]), without placement of transfixation device                                                                                                                                                                                          |
| Spine Surgery | 27279   | Arthrodesis, sacroiliac joint, percutaneous or minimally invasive (indirect visualization), with image guidance, includes obtaining bone graft when performed, and placement of transfixation device                                                                                                                                                                                                 |
| Spine Surgery | 63001   | Laminectomy With Exploration And/Or Decompression Of Spinal Cord And/Or Cauda Equina, Without Facetectomy, Foraminotomy Or Discectomy (Eg, Spinal Stenosis), 1 Or 2 Vertebral Segments; Cervical                                                                                                                                                                                                     |
| Spine Surgery | 63003   | Laminectomy with exploration and/or decompression of spinal cord and/or cauda equina, without facetectomy, foraminotomy or discectomy (eg, spinal stenosis), 1 or 2 vertebral segments; thoracic                                                                                                                                                                                                     |
| Spine Surgery | 63005   | Laminectomy With Exploration And/Or Decompression Of Spinal Cord And/Or Cauda Equina, Without Facetectomy, Foraminotomy Or Discectomy (Eg, Spinal Stenosis), 1 Or 2 Vertebral Segments; Lumbar, Except For Spondylolisthesis                                                                                                                                                                         |
| Spine Surgery | 63012   | Laminectomy With Removal Of Abnormal Facets And/Or Pars Inter-Articularis With Decompression Of Cauda Equina And Nerve Roots For Spondylolisthesis, Lumbar (Gill Type Procedure)                                                                                                                                                                                                                     |
| Spine Surgery | 63015   | Laminectomy With Exploration And/Or Decompression Of Spinal Cord And/Or Cauda Equina, Without Facetectomy, Foraminotomy Or Discectomy (Eg, Spinal Stenosis), More Than 2 Vertebral Segments; Cervical                                                                                                                                                                                                |

| Category      | CPTCode | CPT® Code Description                                                                                                                                                                                                                                                                                                                     |
|---------------|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Spine Surgery | 63016   | Laminectomy with exploration and/or decompression of spinal cord and/or cauda equina, without facetectomy, foraminotomy or discectomy (eg, spinal stenosis), more than 2 vertebral segments; thoracic                                                                                                                                     |
| Spine Surgery | 63017   | Laminectomy With Exploration And/Or Decompression Of Spinal Cord And/Or Cauda Equina, Without Facetectomy, Foraminotomy Or Discectomy (Eg, Spinal Stenosis), More Than 2 Vertebral Segments; Lumbar                                                                                                                                       |
| Spine Surgery | 63020   | Laminotomy (Hemilaminectomy), With Decompression Of Nerve Root(S), Including Partial Facetectomy, Foraminotomy And/Or Excision Of Herniated Intervertebral Disc; 1 Interspace, Cervical                                                                                                                                                   |
| Spine Surgery | 63030   | Laminotomy (Hemilaminectomy), With Decompression Of Nerve Root(S), Including Partial Facetectomy, Foraminotomy And/Or Excision Of Herniated Intervertebral Disc; 1 Interspace, Lumbar                                                                                                                                                     |
| Spine Surgery | 63035   | Laminotomy (Hemilaminectomy), With Decompression Of Nerve Root(S), Including Partial Facetectomy, Foraminotomy And/Or Excision Of Herniated Intervertebral Disc; Each Additional Interspace, Cervical Or Lumbar (List Separately In Addition To Code For Primary Procedure)                                                               |
| Spine Surgery | 63040   | Laminotomy (Hemilaminectomy), With Decompression Of Nerve Root(S), Including Partial Facetectomy, Foraminotomy And/Or Excision Of Herniated Intervertebral Disc, Reexploration, Single Interspace; Cervical                                                                                                                               |
| Spine Surgery | 63042   | Laminotomy (Hemilaminectomy), With Decompression Of Nerve Root(S), Including Partial Facetectomy, Foraminotomy And/Or Excision Of Herniated Intervertebral Disc, Reexploration, Single Interspace; Lumbar                                                                                                                                 |
| Spine Surgery | 63043   | Laminotomy (Hemilaminectomy), With Decompression Of Nerve Root(S), Including Partial Facetectomy, Forminotomy And/Or Excision Of Herniated Intervertebral Disc, Reexploration, Single Interspace; Each Additional Cervical Interspace (List Separately In Addition To Code For Primary Procedure)                                         |
| Spine Surgery | 63044   | Laminotomy (Hemilaminectomy), With Decompression Of Nerve Root(S), Including Partial Facetectomy, Foraminotomy And/Or Excision Of Herniated Intervertebral Disc, Reexploration, Single Interspace; Each Additional Lumbar Interspace (List Separately In Addition To Code For Primary Procedure)                                          |
| Spine Surgery | 63045   | Laminectomy, Facetectomy And Forminotomy (Unilateral Or Bilateral With Decompression Of Spinal Cord, Cauda Equina And/Or Nerve Root[S], [Eg, Spinal Or Lateral Recess Stenosis], Single Vertebral Segment; Cervical                                                                                                                       |
| Spine Surgery | 63046   | Laminectomy, facetectomy and foraminotomy (unilateral or bilateral with decompression of spinal cord, cauda equina and/or nerve root[s], [eg, spinal or lateral recess stenosis]), single vertebral segment; thoracic                                                                                                                     |
| Spine Surgery | 63047   | Laminectomy, Facetectomy And Foraminotomy (Unilateral Or Bilateral With Decompression Of Spinal Cord, Cauda Equina And/Or Nerve Root(S), [Eg,Spinal Or Lateral Recess Stenosis]), Single Vertebral Segment; Lumbar                                                                                                                        |
| Spine Surgery | 63048   | Laminectomy, Facetectomy And Foraminotomy (Unilateral Or Bilateral With Decompression Of Spinal Cord, Cauda Equina And/Or Nerve Root[S], [Eg, Spinal Or Lateral Recess Stenosis]), Single Vertebral Segment; Each Additional Vertebral Segment, Cervical, Thoracic, Or Lumbar (List Separately In Addition To Code For Primary Procedure) |
| Spine Surgery | 63050   | Laminoplasty, Cervical, With Decompression Of The Spinal Cord, 2 Or More Vertebral Segments                                                                                                                                                                                                                                               |
| Spine Surgery | 63051   | Laminoplasty, Cervical, With Decompression Of The Spinal Cord, 2 Or More Vertebral Segments; With Reconstruction Of The Posterior Bony Elements (Including The Application Of Bridging Bone Graft And Non-Segmental Fixation Devices (Eg, Wire, Suture, Mini-Plates), When Performed)                                                     |
| Spine Surgery | 63052   | Laminectomy, facetectomy, or foraminotomy (unilateral or bilateral with decompression of spinal cord, cauda equina and/or nerve root[s] [eg, spinal or lateral recess stenosis]), during posterior interbody arthrodesis, lumbar; single vertebral segment (List separately in addition to code for primary procedure)                    |
| Spine Surgery | 63053   | Laminectomy, facetectomy, or foraminotomy (unilateral or bilateral with decompression of spinal cord, cauda equina and/or nerve root[s] [eg, spinal or lateral recess stenosis]), during posterior interbody arthrodesis, lumbar; each additional segment (List separately in addition to code for primary procedure)                     |
| Spine Surgery | 63055   | Transpedicular approach with decompression of spinal cord, equina and/or nerve root(s) (eg, herniated intervertebral disc), single segment; thoracic                                                                                                                                                                                      |
| Spine Surgery | 63056   | Transpedicular Approach With Decompression Of Spinal Cord, Equina And/Or Nerve Root(S) (Eg, Herniated Intervertebral Disc), Single Segment; Lumbar (Including Transfacet, Or Lateral Extraforaminal Approach) (Eg, Far Lateral Herniated Intervertebral Disc)                                                                             |
| Spine Surgery | 63057   | Transpedicular Approach With Decompression Of Spinal Cord, Equina And/Or Nerve Root(S) (Eg, Herniated Intervertebral Disc), Single Segment; Each Additional Segment, Thoracic Or Lumbar (List Separately In Addition To Code For Primary Procedure)                                                                                       |
| Spine Surgery | 63075   | Discectomy, Anterior, With Decompression Of Spinal Cord And/Or Nerve Root(S), Including Osteophytectomy; Cervical, Single Interspace                                                                                                                                                                                                      |
| Spine Surgery | 63076   | Discectomy, Anterior, With Decompression Of Spinal Cord And/Or Nerve Root(S), Including Osteophytectomy; Cervical, Each Additional Interspace (List Separately In Addition To Code For Primary Procedure)                                                                                                                                 |

| Category      | CPTCode | CPT® Code Description                                                                                                                                                                                                                                                                                              |
|---------------|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Spine Surgery | 63081   | Vertebral Corpectomy (Vertebral Body Resection), Partial Or Complete, Anterior Approach With Decompression Of Spinal Cord And/Or Nerve Root(S); Cervical, Single Segment                                                                                                                                           |
| Spine Surgery | 63082   | Vertebral Corpectomy (Vertebral Body Resection), Partial Or Complete, Anterior Approach With Decompression Of Spinal Cord And/Or Nerve Root(S); Cervical, Each Additional Segment (List Separately In Addition To Code For Primary Procedure)                                                                      |
| Spine Surgery | 63085   | Vertebral corpectomy (vertebral body resection), partial or complete, transthoracic approach with decompression of spinal cord and/or nerve root(s); thoracic, single segment                                                                                                                                      |
| Spine Surgery | 63086   | Vertebral corpectomy (vertebral body resection), partial or complete, transthoracic approach with decompression of spinal cord and/or nerve root(s); thoracic, each additional segment (List separately in addition to code for primary procedure)                                                                 |
| Spine Surgery | 63087   | Vertebral corpectomy (vertebral body resection), partial or complete, combined thoracolumbar approach with decompression of spinal cord, cauda equina or nerve root(s), lower thoracic or lumbar; single segment                                                                                                   |
| Spine Surgery | 63088   | Vertebral corpectomy (vertebral body resection), partial or complete, combined thoracolumbar approach with decompression of spinal cord, cauda equina or nerve root(s), lower thoracic or lumbar; each additional segment (List separately in addition to code for primary procedure)                              |
| Spine Surgery | 63090   | Vertebral corpectomy (vertebral body resection), partial or complete, transperitoneal or retroperitoneal approach with decompression of spinal cord, cauda equina or nerve root(s), lower thoracic, lumbar, or sacral; single segment                                                                              |
| Spine Surgery | 63091   | Vertebral corpectomy (vertebral body resection), partial or complete, transperitoneal or retroperitoneal approach with decompression of spinal cord, cauda equina or nerve root(s), lower thoracic, lumbar, or sacral; each additional segment (List separately in addition to code for primary procedure)         |
| Spine Surgery | 63101   | Vertebral corpectomy (vertebral body resection), partial or complete, lateral extracavitary approach with decompression of spinal cord and/or nerve root(s) (eg, for tumor or retropulsed bone fragments); thoracic, single segment                                                                                |
| Spine Surgery | 63102   | Vertebral corpectomy (vertebral body resection), partial or complete, lateral extracavitary approach with decompression of spinal cord and/or nerve root(s) (eg, for tumor or retropulsed bone fragments); lumbar, single segment                                                                                  |
| Spine Surgery | 63103   | Vertebral corpectomy (vertebral body resection), partial or complete, lateral extracavitary approach with decompression of spinal cord and/or nerve root(s) (eg, for tumor or retropulsed bone fragments); thoracic or lumbar, each additional segment (List separately in addition to code for primary procedure) |
| Spine Surgery | 63185   | Laminectomy with rhizotomy; 1 or 2 segments                                                                                                                                                                                                                                                                        |
| Spine Surgery | 63190   | Laminectomy with rhizotomy; more than 2 segments                                                                                                                                                                                                                                                                   |
| Spine Surgery | 63191   | Laminectomy with section of spinal accessory nerve                                                                                                                                                                                                                                                                 |
| Spine Surgery | 0095T   | Removal Of Total Disc Arthroplasty (Artificial Disc), Anterior Approach,Each Additional Interspace, Cervical (List Separately In Addition To Code For Primary Procedure)                                                                                                                                           |
| Spine Surgery | 0098T   | Revision Including Replacement Of Total Disc Arthroplasty (Artificial Disc), Anterior Approach, Each Additional Interspace, Cervical (Listseparately In Addition To Code For Primary Procedure)                                                                                                                    |
| Spine Surgery | 0164T   | Removal Of Total Disc Arthroplasty, (Artificial Disc), Anterior Approach,Each Additional Interspace, Lumbar (List Separately In Addition To Code For Primary Procedure)                                                                                                                                            |
| Spine Surgery | 0165T   | Revision Including Replacement Of Total Disc Arthroplasty (Artificialdisc), Anterior Approach, Each Additional Interspace, Lumbar (List Separately In Addition To Code For Primary Procedure)                                                                                                                      |
| Spine Surgery | E0748   | Osteogenesis Stimulator; Electrical, Noninvasive, Spinal Applications                                                                                                                                                                                                                                              |
