# Home Health Care Authorization Overview

- Initial home health authorization requests must be made within **7** days of the first visit\*
- Requests prior to the current date may be submitted on the EviCore portal, phone, or fax
- EviCore will provide initial authorizations by service type in the following ways:

Initial Authorizations			
Service	HCPSC Codes	Standard Bundle	Orthopedic Bundle *
Skilled Nursing	G0299, G0300	3 visits each in the first 30 days	6 visits in the first 30 days
Physical Therapy	G0151, G0157, G0159		10 visits in the first 30 days
Home Health Aide	G0156		6 visits in the first 30 days
Speech Therapy	G0153	1 visit each in the first 30 days	1 visit in the first 30 days
Occupational Therapy	G0152, G0158, G0160		3 visits in the first 30 days
Social Worker	G0155		1 visit in the first 30 days

- If the above bundle of services is requested on the initial request, a real-time approval will be provided
- Additional visits needed in the first 30 days will be approved based on medical necessity
- Authorizations for continued services will be approved based on medical necessity
- The above are examples of the 25 bundles that are available

\* *Orthopedic Bundle: Applies only if the patient has had recent orthopedic surgery for hip or knee replacement*

# Home Health Care Authorization Overview (continued)

---

## EviCore will use substitution logic for Skilled Nursing, Physical Therapy, Occupational Therapy, and Speech Therapy

- Nursing: G0299 covers ALL other nursing codes
- PT: G0151 covers all PT codes
- OT: G0152 covers all OT codes
- ST: G0153 covers all ST codes

# Authorization Outcomes, Special Considerations & Post-Decision Options

# Authorization Approval & Partial Approval

## Approved Requests

- Standard requests are processed within 48 hours after receipt of all necessary clinical information.
- Authorization letters will be faxed to the requesting provider and can be printed on demand from the EviCore portal at [www.evicore.com](http://www.evicore.com).
- Members will receive an authorization letter by mail.

# Determination Outcomes: Hold Process

## Hold Process

- When a request is unable to be approved due to insufficient clinical information, it will go into a HOLD – Provider Outreach status.
- The provider will receive additional verbal and written outreaches for additional information and be notified that a Peer-to-Peer is available.
- The hold will be in place for 3 calendar days for standard cases and 3 hours for urgent cases.
- **Important:** If no additional clinical information is received and no Peer-to-Peer is requested, the case moves to the medical director for review and denial.

# Authorization Outcomes: Adverse Determination

EviCore will provide 1 transitional visit if clinical is insufficient or the member appears to be at a stable or baseline LOF so that the member can continue to have services until firmly discharged or information received.

When a request does not meet medical necessity based on evidence-based guidelines, an adverse determination is made and the request is denied.

In those cases, a denial letter with the rationale for the decision and appeal rights will be issued from EviCore to the provider and member.

Adverse determination status can also be viewed on demand from the EviCore portal at [www.evicore.com](http://www.evicore.com).

# Clinical Consultation Request

## Hold Process

- If a request is not approved and requires further clinical discussion for approval, we offer clinical consultations with referring physicians and an EviCore Medical Director.
- Clinical consultations may result in either a reversal of decision to deny or an uphold of the original decision.
- A clinical consultation can be scheduled via the provider portal at [www.evicore.com](http://www.evicore.com) or by calling EviCore at 888.622.7329.

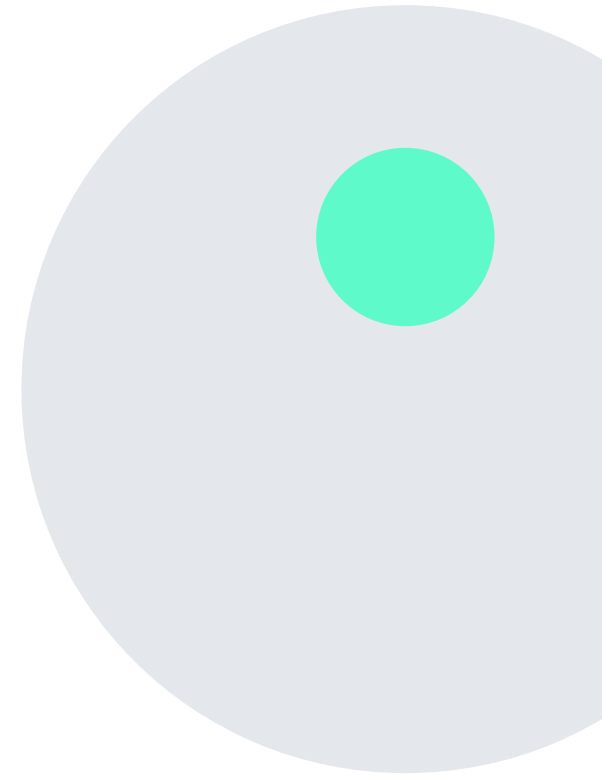

## Adverse Determination

- Providers can request a clinical consultation with an EviCore physician to better understand the reason for denial.
- However, once a denial decision has been made, the decision cannot be overturned via clinical consultation.

# Special Circumstances (Home Health)

- The HHA (home health agency) has 7 calendar days to perform the initial bundle of services before an authorization request is required. The request must be made within 7 days of the start of care date (first visit).
- If the request for authorization is made more than 7 calendar days from the start of care, EviCore will backdate only for 7 calendar days. Any services performed before that would need to be submitted as a claims appeal through Aetna.
- If the request for authorization is made after the services have all been completed and the patient has been discharged from home health care, the request will not be started with EviCore. The HHA will need to file a claim and do a claims appeal through Aetna.

## Retrospective Requests
