

## Alabama Medicaid Cardiology Code List

Category	CPT® Code	CPT® Code Description
Cardiology	75577	Quantification and characterization of coronary atherosclerotic plaque to assess severity of coronary disease, derived from augmentative software analysis of the data set from a coronary computed tomographic angiography, with interpretation and report by a physician or other qualified health care professional
CCTA	75580	Noninvasive estimate of coronary fractional flow reserve (FFR) derived from augmentative software analysis of the data set from a coronary computed tomography angiography, with interpretation and report by a physician or other qualified health care professional
Nuclear Stress	78451	Myocardial perfusion imaging, tomographic (spect) including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)
Nuclear Stress	78452	Myocardial perfusion imaging, tomographic (spect) including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); multiple studies, at rest and/or stress (exercise or pharmacologic) and/or redistribution and/or rest reinjection
Nuclear Stress	78453	Myocardial perfusion imaging, planar (including qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)
Nuclear Stress	78454	Myocardial perfusion imaging, planar (including qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); multiple studies, at rest and/or stress (exercise or pharmacologic) and/or redistribution and/or rest reinjection
Nuclear Med	78466	Nuclear medicine study of heart muscle following heart attack
Nuclear Med	78468	Myocardial imaging, infarct avid, planar; with ejection fraction by first pass technique
Nuclear Med	78469	Myocardial imaging, infarct avid, planar, tomographic spect with or without quantification
Nuclear Med	78472	Gated heart, rest or stress
Nuclear Med	78473	Cardiac blood pool muga scan
Nuclear Med	78481	Heart first pass single
Nuclear Med	78483	Cardiac blood pool imaging, multi
Nuclear Med	78494	Cardiac blood pool imaging, spect
Nuclear Med	78496	Cardiac blood pool imaging, single at rest
Nuclear Med	78499	Nuclear medicine study of cardiovascular systems
Echocardiography	93303	Transthoracic echocardiography for congenital cardiac anomalies; complete
Echocardiography	93304	Transthoracic echocardiography for congenital cardiac anomalies; follow-up or limited study
Echocardiography	93306	Echocardiography, transthoracic, real-time with image documentation (2d), includes m-mode recording, when performed, complete, with spectral doppler echocardiography, and with color flow doppler echocardiography
Echocardiography	93307	Echocardiography, transthoracic, real-time with image documentation (2d) with or without m-mode recording; complete
Echocardiography	93308	Echocardiography, transthoracic, real-time with image documentation (2d) with or without m-mode recording; follow-up or limited study
Echocardiography	93312	Echocardiography, transesophageal, real time with image documentation (2d) (with or without m-mode recording); including probe placement, image acquisition, interpretation and report
Echocardiography	93313	Echocardiography, transesophageal, real time with image document (2d) (with or without m-mode recording); placement of transesophageal probe only
Echocardiography	93314	Echocardiography, transesophageal, real time with image documentation (2d) (with or without m-mode recording); image acquisition, interpretation and report only
Echocardiography	93315	Transesophageal echocardiography for congenital cardiac anomalies; including probe placement, image acquisition, interpretation and report
Echocardiography	93316	Placement of transesophageal probe only ( for congenital cardiac anomalies)
Echocardiography	93317	Image acquisition, interpretation and report only (for congenital cardiac anomalies)
Echocardiography	93318	Echocardiography transesophageal (tee) for monitoring purposes, including probe placement, real time 2-dimensional image acquisition and interpretation leading to ongoing (continous) assessment of (dynamically changing) cardiac pumping function and to therapeutic measures on an immediate time basis

Category	CPT® Code	CPT® Code Description
Echocardiography	93319	3D echocardiographic imaging and postprocessing during transesophageal echocardiography, or during transthoracic echocardiography for congenital cardiac anomalies, for the assessment of cardiac structure(s) (eg, cardiac chambers and valves, left atrial appendage, interatrial septum, interventricular septum) and function, when performed (List separately in addition to code for echocardiographic imaging)
Echocardiography	93320	Doppler echocardiography, pulsed wave and/or continuous wave with spectral display; complete
Echocardiography	93321	Doppler echocardiography, pulsed wave and/or continuous wave with spectral display; follow-up or limited study
Echocardiography	93325	Doppler echocardiography color flow velocity mapping
Echo Stress	93350	Echocardiography, transthoracic, real-time with image documentation (2d), with or without m-mode recording, during rest and cardiovascular stress test, with interpretation and report
Echo Stress	93351	Echocardiography, transthoracic, real-time with image documentation (2d), includes m-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report; including performance of continuous electrocardiographic monitoring, with supervision by a physician or other qualified health care professional
Echo Stress	93352	Use of echocardiographic contrast agent during stress echocardiography (list separately in addition to code for primary procedure)
Cardiac Cath	93451	Right heart catheterization including measurement (s) of oxygen saturation and cardiac output when performed.
Cardiac Cath	93452	Left heart catheterization including intraprocedural injection(s) for left ventriculography, imaging supervision and interpretation, when performed
Cardiac Cath	93453	Combined right and left heart catheterization including intraprocedural injection(s) for left ventriculography, imaging supervision and interpretation, when performed
Cardiac Cath	93454	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation;
Cardiac Cath	93455	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with catheter placement(s) in bypass graft(s) (internal mammary, free arterial venous grafts) including intraprocedural injection(s) for bypass graft angiography
Cardiac Cath	93456	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with right heart catheterization
Cardiac Cath	93457	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous grafts) including intraprocedural injection(s) for bypass graft angiography and right heart catheterization
Cardiac Cath	93458	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed
Cardiac Cath	93459	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed, catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous grafts) with bypass graft angiography
Cardiac Cath	93460	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with right and left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed
Cardiac Cath	93461	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with right and left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed, catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous grafts) with bypass graft angiography
Cardiac Cath	93463	Drug admin and hemodynamic measurement
Cardiac Cath	93464	Exercise with hemodynamic measurement
MRI	C9762	Cardiac magnetic resonance imaging for morphology and function, quantification of segmental dysfunction; with strain imaging
MRI	C9763	Cardiac magnetic resonance imaging for morphology and function, quantification of segmental dysfunction; with stress imaging
