Clinical Approach

Prior Authorization Program

Fundamental Approach

- Clinical reviewers evaluate clinical information to determine whether services meet medical necessity criteria.
- Providers are encouraged to request authorization before care is delivered to ensure payment for services rendered.
- Once the initial request is approved, requests for subsequent therapy can be made as early as **7 calendar days** prior to requested start date.

Clinical Philosophy

- Support patient-centered care founded on best available evidence.
- Promote functionally oriented and measureable treatment programs.
- Focus on skilled, medically necessary treatment interventions.
- Empower patient independence.
- Eliminate practice variation that cannot be explained or justified.

Prior Authorization Program

Goals

- Authorize medically necessary services which require the skills of a licensed professional.
- Promote evidence-based practice.
- Identify and review treatment interventions where evidence does not support use.
- Provide evidence-based guidelines to support authorization decisions and educate practitioners.
- Decrease or eliminate unexplained practice variation and unnecessary visits.
- Manage costs efficiently so members can continue to receive **quality care** and **skilled services**.

Prior Authorization Program

Medical Necessity

- There must be high-quality research supporting massage therapy as a specific and effective treatment for the patient's condition.
- The condition is expected to improve significantly in a reasonable and generally predictable period of time. Therapy duration should **not** be ongoing without end.
- The amount, frequency, and length of the services must be reasonable under accepted standards of practice.
 - For these purposes, “accepted standards of medical practice” means widely accepted clinical concepts and practices based on high-quality scientific evidence published in peer-reviewed literature or evidence-based guidelines.
- The medical benefit is designed to allow therapy to return the patient to essential activities of daily living.
 - It was **not** designed to allow continued therapy to return to recreational or athletic activities.
 - It was **not** designed to cover therapy for the purpose of improving or maintaining general fitness.

You can view the massage therapy guidelines at <https://www.EviCore.com/provider/clinical-guidelines>

Submitting Requests

How to Request Prior Authorization

The EviCore Provider Portal is the easiest, most efficient way to request clinical reviews and check statuses.

- **Save time:** Quicker process than requests by phone or fax.
- **Available 24/7.**
- **Save your progress:** If you need to step away, you can save your progress and resume later.
- **Upload additional clinical information:** No need to fax supporting clinical documentation, it can be uploaded on the portal.
- **View and print determination information:** Check case status in real time.
- **Dashboard:** View all recently submitted cases.
- **E-notification:** Opt to receive email notifications when there is a change to case status.
- **Duplication feature:** If you are submitting more than one request, you can duplicate information to expedite submissions.

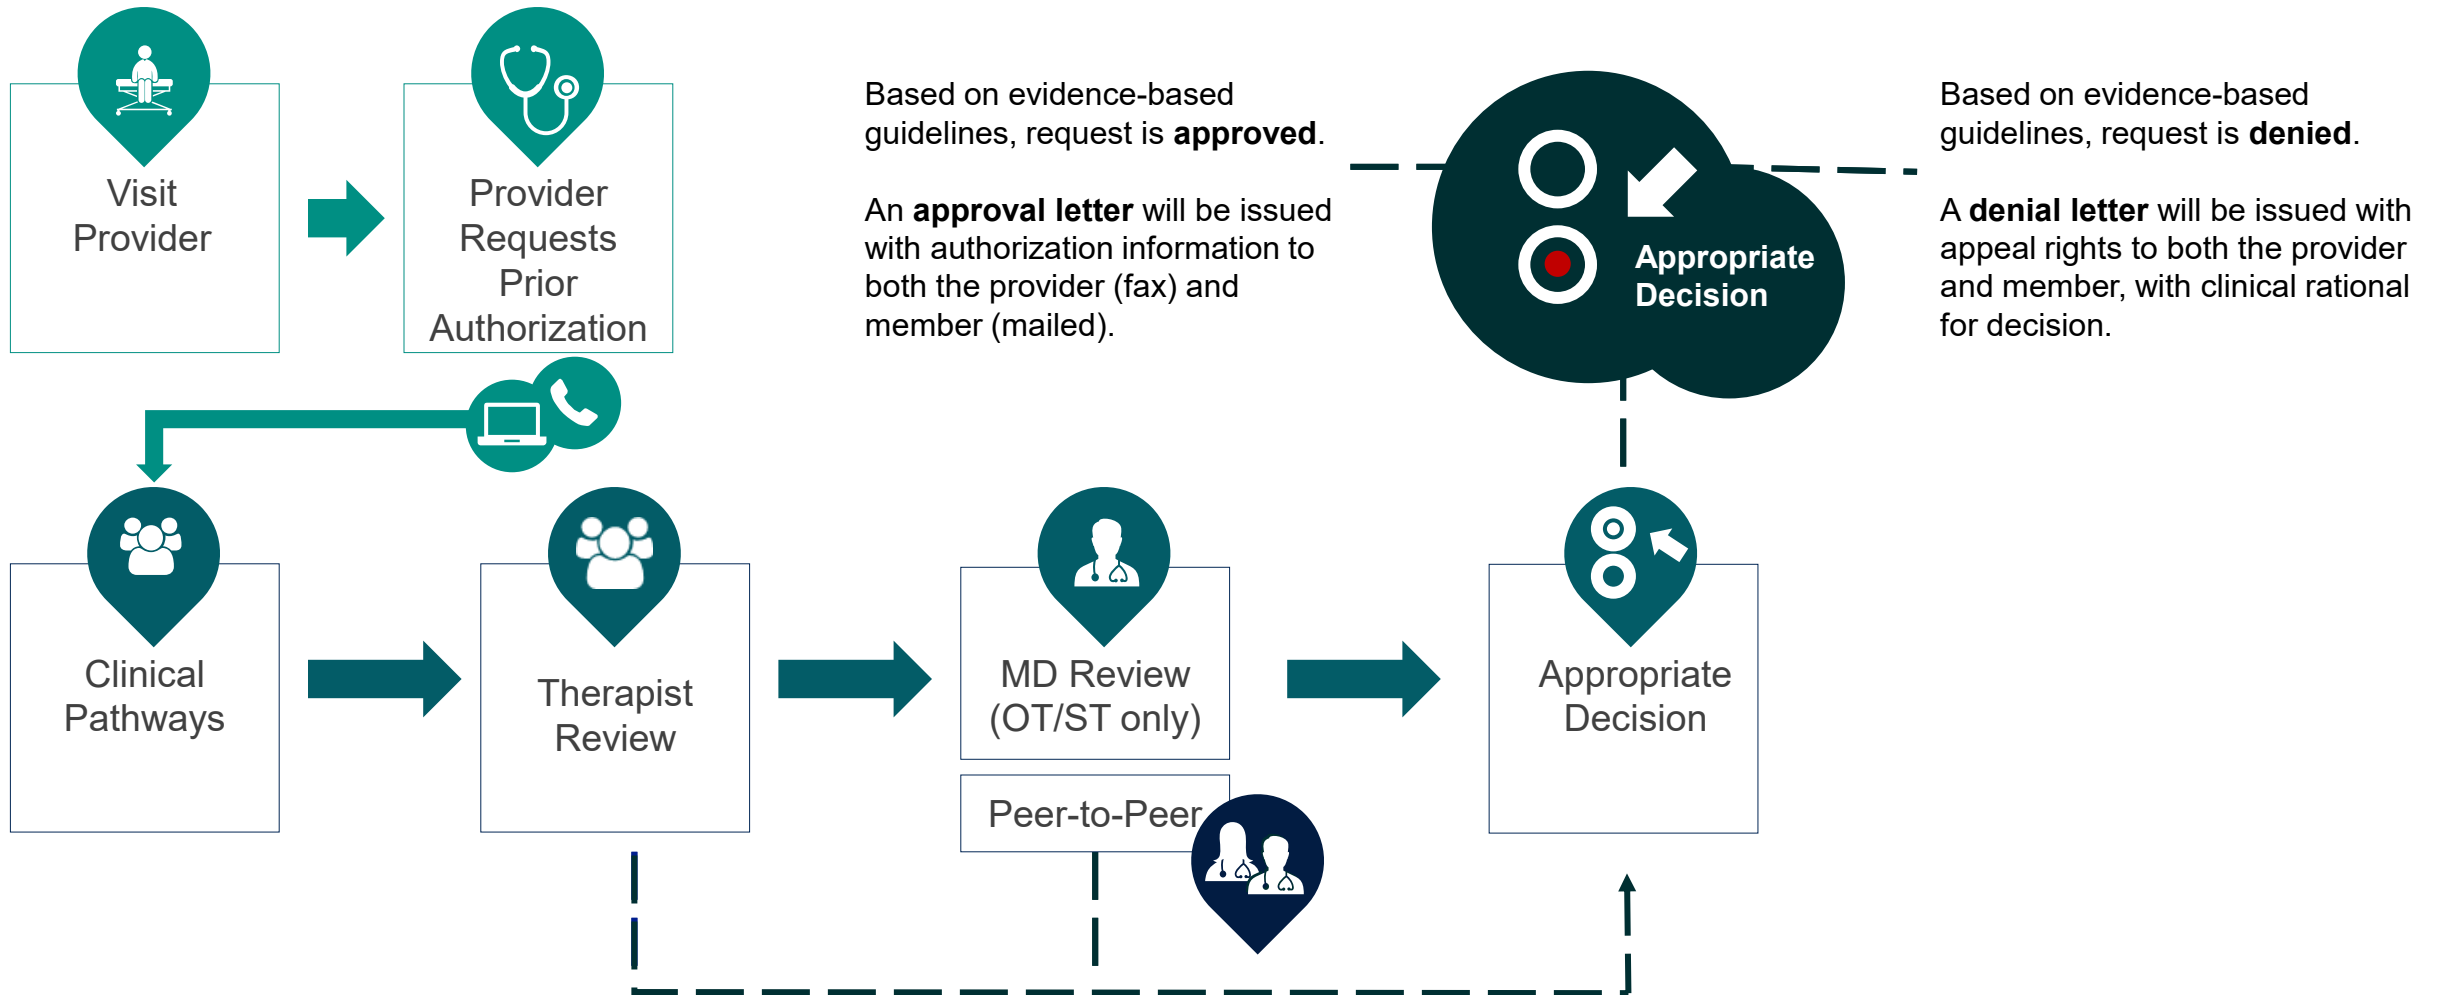

To access the EviCore Provider Portal, visit [EviCore.com/provider](https://www.evicore.com/provider)

Prior Authorization Process

Information Required for Request

Clinical information needed for requests:

- Patient's subjective complaints, objective examination findings, and level of function.
- Baseline clinical information from the initial evaluation.
- Current clinical information from follow-up visit.
- Provider's impression of the member's response to therapy (follow-up visits).
- Information from patient-reported functional outcome measures, progress notes, and/or clinical worksheets.
- Complexities that will impact the therapy plan of care.

Prior Authorization Process | Clinical Information

Clinical Information – What EviCore needs and why we need it:

- Clinical information is required to determine whether the services requested are medically necessary.
- Use clinical worksheets located at EviCore.com as a guide to determine what clinical information is required.
 - The **clinical worksheets** are specific to conditions and designed to assist with the submission of the patient and provider information for medical necessity review.
 - Worksheets should be used as a guide for questions and the provider will be prompted to answer when completing the online requests.
 - These worksheets should be completed by the provider during the initial consultation/evaluation and treatment planning, collecting the clinical information to allow for ease of submission.
 - Physical & occupational therapy requests have the ability for a real time decision for the first **two (2)** requests for an episode of care.
- Be prepared to provide patient-reported functional outcome measures with your submission (for example: ODI, NDI, DASH/QuickDASH, LEFS, HOOS JR, KOOS JR).
- Clinical information should be current – typically something collected within **14 days** prior of the request.
- **Missing or incomplete clinical information will delay case processing.**

Prior Authorization Process

Clinical Pathway

- Simplified approach to clinical collection attempting to reduce administrative efforts for providers.
- Improves the ability to receive a real time decision when submitting a request via the web or phone.
- “Gets out of the way” of providers who are practicing efficiently and effectively.
- Adds quality measures via inclusion of patient reported functional outcomes.
- Uses data collected over the years from claims data (managed and unmanaged) to set the average number of visits for a condition.
- Acknowledges complexities that may require a greater frequency or intensity of care.
- Allows providers to provide additional information for cases that are not “average.”

Tips to Improve Efficiency

Medical Necessity and Patient-Focused Care

The member's needs determine medical necessity.

- The member's clinical presentation and specific needs are the primary factors considered when determining medical necessity.
- The physician's prescription for treatment frequency and duration does not demonstrate medical necessity.

Review medical necessity regularly.

- The member's response to care should be evaluated each visit to allow modification of the treatment plan based on the member's current status.
- Complete a review of continuing medical necessity at least every **30 days**. This allows you to assess how the member is responding to treatment.
- Clinical documentation should include the member's response to care, functional improvement, and remaining functional deficits.
- Consider whether the skills of a provider are still necessary and, if it is, identify the specific interventions that require that skill.

Prior Authorization Process

If you are requesting authorization before treatment begins:

- Complete your initial evaluation, then submit for prior authorization within **2 business days**. The initial evaluation **does not** require prior authorization.
- Start date should be the **first day of treatment** (Date of initial evaluation or visit following if treatment was not provided during the initial evaluation visit).
- When requesting ongoing or continuing care, you can submit up to **7 calendar days** prior to the next start date for authorization.
- Notification requires submission of the following information:
 - Patient demographics
 - Provider demographics
 - Minimal clinical information
 - Type of condition
 - Post-surgical therapy? If so, please provide the date of surgery.
 - Functional outcome measures
- If there was prior therapy, questions will be asked to determine if this is a new condition.

Prior Authorization Process

How to Request Additional Visits:

- Additional visits may be requested as early as **7 calendar days** prior to the requested start date.
- The **start date** will be the first date you need additional visits to begin.
- Clinical information should be **current**. Recommended timeframes:
 - Adult and non-developmental pediatric patients = **14 calendar days**
 - Developmental pediatric patients = **30 calendar days**
- Use the appropriate **Clinical Worksheet** as a guide. Please provide initial and current functional outcome measure scores.
- If condition is complex or the worksheet does not capture aspects of the condition you want to convey, this information can be given as “additional information” via upload, fax, or text box summary.
- Address any complexities that will impact the therapy plan of care.
- Provider’s impression of the member’s response to care.

Link to Clinical Worksheets | Physical & Occupational Therapy

Start at EviCore.com, click on **Resources**.

From the Resources dropdown, select **Clinical Worksheets**.

Select Musculoskeletal: **Therapies**.

Enter **Health Plan** name in the search field.

The PT-OT **worksheets** will be listed under The **Physical & Occupational Therapy** header.

PT – OT | Summary of Portal Benefits

- ✓ Elimination of pre-set waivers
- ✓ Increased provider satisfaction
- ✓ Reduced administrative burden for providers
- ✓ Increased opportunity for real-time decisions
- ✓ Expanded, member-focused decisions
- ✓ Decreased case review turn-around-times.
- ✓ Patients able to receive the right amount of care in a timely manner.

Insufficient Clinical | Additional Documentation Needed

Additional Documentation to Support Medical Necessity

If during case build all required pieces of documentation are not received, or are insufficient for EviCore to reach a determination, the following will occur:

A Hold Letter will be faxed to the Requesting Provider requesting additional documentation

The hold notification will inform the provider about what clinical information is needed as well as the **date by which it is needed**.

The Provider must submit the additional information to EviCore

Requested information must be received within the timeframe as specified in the hold letter, or EviCore will render a determination based on the original submission.

EviCore will review the additional documentation and reach a determination

Determination notifications will be sent.

Prior Authorization Process | Important Concepts

Authorization Decisions Include:

- Visits or units (depending on health plan)
- Approved time period (i.e., 6 visits, authorized from 1/1/24 to 1/31/24)
- EviCore recommends approved visits be spread over the approved period to prevent a gap in care.

Overlapping Requests

- Request for more visits within the existing approved time period.
- Review to determine if additional visits are medically necessary.

Prior Authorization Process | Important Concepts

Date extensions are available if you are unable to use all visits within the approved period.

- Extend for the period that is needed up to a maximum of **30 days**.
- The extension must be requested prior to the expiration of the authorization.

Extensions can be requested by the following methods:

- Online at www.EviCore.com
- By phone at 888-333-8641

Attention!

Physical Therapy, Occupational Therapy, Speech Therapy, Massage Therapy, Chiropractic Care, and Acupuncture services are eligible for case duplication and date extensions. Are you requesting one of these services?

Date Extension

Continuing Care

Continue to Build a New Case

Requests for Spine Surgery, Joint Replacement, Arthroscopy, and Pain Management, please select "Continue to Build a New Case"

Prior Authorization Process | Important Concepts

Treating Multiple Conditions within the Same Authorization Period

- If you are treating multiple conditions within the same period, there is no need to request authorization for treatment for each condition.
- The authorization covers all conditions treated within the same period of time.
- If a member is receiving treatment from a different therapist within the same clinic with a new plan of care for a specialty condition (vestibular treatment, wound care, etc.), then a separate authorization may be indicated. Be sure to submit under the appropriate ICD10 code and state this request is for a new condition by a different therapist.
- When treating more than one condition, please advise EviCore to ensure adequate units are approved.
 - When submitting by the web, you will be asked if you are treating a second condition.
 - **Answer = Yes; report information specific to the second condition.**
 - When requesting authorization over the phone, inform the agent that you are requesting authorization for two conditions.
 - If submitting by fax, complete clinical worksheets for both conditions.

Prior Authorization Outcomes, Special Considerations & Post-Decision Options

Prior Authorization Outcomes

Determination Outcomes:

- **Approved Requests:** Authorizations are valid for up to 30 **calendar days** from the date of approval.
- **Partially Approved Requests:** In instances where multiple CPT codes are requested, some may be approved and some denied. In these instances, the determination letter will specify what has been approved as well as post decision options for denied codes, including denied Site of Care (if applicable).
- **Denied Requests:** Based on evidence-based guidelines, if a request is determined as inappropriate, a notification with the rationale for the decision and post decision/ appeal rights will be issued.

Notifications:

- Authorization letters will be faxed to the ordering provider.
- Web initiated cases will receive e-notifications when a user opts to receive.
- Members will receive a letter by mail.
- Approval information can be printed on demand from the EviCore portal:
www.EviCore.com

Special Circumstances

Retrospective (Retro) Authorization Requests

- Must be submitted within **2 business days** from the date of services.
- Retro requests submitted beyond this timeframe will be administratively denied.
- Reviewed for **clinical urgency** and medical necessity.
- Retro requests are processed within **14 Calendar days**
- When authorized, the start date will be the submitted date of service.
- Clinical submitted for retrospective review should include:
 - The requested number of visits and date range.
 - Information from patient-reported functional outcome measures, progress notes, and/or clinical worksheets.

Urgent Prior Authorization Requests

- EviCore uses the NCQA/URAC definition of **urgent**: when a delay in decision-making may seriously jeopardize the life or health of the member.
- Can be initiated on provider portal or by phone.
- Urgent cases are typically reviewed within 24 to 72 hours.

Special Circumstances

Authorization Update

- If updates are needed on an existing authorization, you can contact EviCore by phone at 888-333-8641
- While EviCore needs to know if changes are made to the approved request, any change could result in the need for a separate clinical review and require a new request (and the original approved request would need to be withdrawn).
- If the authorization is not updated, it may result in a claim denial.

Post-Decision Options Medicare Members

My case has been denied. What's next?

Clinical Consultation

- Providers can request a Clinical Consultation with an EviCore physician to better understand the reason for denial.
- Once a denial decision has been made, however, the decision cannot be overturned via Clinical Consultation.

Reconsideration

- Medicare cases do not include a reconsideration option.

Appeals

- EviCore will not process first-level appeals.

- All clinical information and the prior authorization request will be reviewed by a physician other than the physician who made the initial determination.
- A written notice of the appeal decision will be mailed to the member and faxed to the ordering provider.

Post-Decision Options Medicaid Members

My case has been denied. What's next?

Clinical Consultation

- Providers can request a Clinical Consultation with an EviCore physician to better understand the reason for denial.
- Once a denial decision has been made, however, the decision cannot be overturned via Clinical Consultation.

Reconsideration

- Are available for Medicaid membership .

Appeals

- EviCore will not process first-level appeals.

- All clinical information and the prior authorization request will be reviewed by a physician other than the physician who made the initial determination.
- A written notice of the appeal decision will be mailed to the member and faxed to the ordering provider.

Urgency Indicator

If the case you are submitting is found NOT to meet one of the two conditions below, your case will be processed as a standard/routine, non Urgent request. If you have clinical information and this request meets the criteria for urgent, please indicate below.

In order for eviCore to process this case as clinically urgent you must upload clinical documentation relevant to this case. If you are unable to upload clinical documentation at this time contact eviCore to process this case as urgent.

Please indicate if any of the following criteria are true regarding urgency of this request :

- A delay in care could seriously jeopardize the life or health of the patient or patient's ability to regain maximum function.
- A delay in care would subject the member to severe pain that cannot be adequately managed without the care or treatment requested in the prior authorization.
- None of the above
