Program Overview

Prior Authorization Services

Applicable Membership

- ACA Exchange (Commercial)
- Jefferson Health Plans CHIP
- Jefferson Health Plans EverWell (Medicaid)
- Medicare

Prior authorization applies to the following services

- Outpatient
- Elective/Non-emergent

Prior authorization does NOT apply to services performed in

- Emergency Rooms
- Observation Services
- Inpatient Stays

It is the responsibility of the ordering provider to request prior authorization approval for services.

Holistic Treatment Plan Review | Radiation Therapy

EviCore relies on information about the patient's unique presentation and physician's intended treatment plan to authorize all services.

- Providers specify the cancer type or body part being treated rather than requesting individual CPT and HCPCS codes.
- The intended treatment plan for cancer type is compared to the evidence-based guidelines developed by our Medical Advisory Board.
- For Medicare Cases, LCD and NCDs are followed if there is one applicable to the treatment.
- If a request is authorized or partially authorized, then the requested treatment technique and number of fractions will be provided, and the provider and member will be notified.
- If Image Guidance (IGRT) is requested, it may or may not be approved, separate from the primary treatment technique.

For questions about specific CPT codes that are generally included with each episode of care, please reference the **EviCore Radiation Therapy Coding Guidelines**.

Submitting Requests

How to Request Prior Authorization

The EviCore Provider Portal is the easiest, most efficient way to request clinical reviews and check statuses.

- **Save time:** Quicker process than requests by phone or fax.
- **Available 24/7.**
- **Save your progress:** If you need to step away, you can save your progress and resume later.
- **Upload additional clinical information:** No need to fax supporting clinical documentation; it can be uploaded on the portal.
- **View and print determination information:** Check case status in real time.
- **Dashboard:** View all recently submitted cases.
- **E-notification:** Opt to receive email notifications when there is a change to case status.
- **Duplication feature:** If you are submitting more than one request, you can duplicate information to expedite submissions.

Insufficient Clinical | Additional Documentation Needed

Additional Documentation to Support Medical Necessity

If during case build all required pieces of documentation are not received, or are insufficient for EviCore to reach a determination, the following will occur:

Prior Authorization Outcomes, Special Considerations & Post-Decision Options

Prior Authorization Outcomes

Determination Outcomes:

- **Approved Requests:** Authorizations are valid for **45-240 calendar days** from the date of approval. Please refer to the authorization notification for the specific timeframe.
- **Partially Approved Requests:** In instances where multiple CPT codes are requested, some may be approved and some denied. In these instances, the determination letter will specify what has been approved as well as post decision options for denied codes, including denied Site of Care (if applicable).
- **Denied Requests:** Based on evidence-based guidelines, if a request is determined as inappropriate, then a notification with the rationale for the decision and post decision/ appeal rights will be issued.

Notifications:

- Authorization letters will be faxed to the ordering provider.
- Web initiated cases will receive e-notifications when a user opts to receive.
- Members will receive a letter by mail.
- Approval information can be printed on demand from the EviCore portal: www.EviCore.com

Post-Decision Options | ACA, CHIP, and Medicaid Members

My case has been denied. What's next?

- Your determination letter is the best immediate source of information to assess what options exist on a case that has been denied.
- You may also call EviCore at **888-444-6178** to speak with an agent who can provide available option(s) and instruction on how to proceed.
- Alternatively, select “All Post Decisions” under the authorization lookup function on **EviCore.com** to see available options.

Reconsiderations

- Reconsiderations can be requested in writing or verbally via a Clinical Consultation with an EviCore physician.
- Please refer to the determination letter for instructions.

Appeals

- EviCore **will not** process first-level appeals.
- Please refer to the denial letter for instructions.

Post-Decision Options | Medicare Members

My case has been denied. What's next?

Clinical Consultation

- Providers can request a Clinical Consultation with an EviCore physician to better understand the reason for denial.
- Once a denial decision has been made, however, the decision cannot be overturned via Clinical Consultation.

Reconsideration

- Medicare cases **do not** include a reconsideration option.

Appeals

- EviCore **will not** process first-level appeals for Medicare members.

Special Circumstances

Retrospective (Retro) Authorization Requests

- Must be submitted within **180 calendar days** from the date of service.
- Reviewed for clinical urgency and medical necessity.
- When authorized, the start date will be the submitted date of service.

Urgent Prior Authorization Requests

- EviCore uses the NCQA/URAC definition of **urgent**: when a delay in decision-making may seriously jeopardize the life or health of the member.
- Can be initiated on provider portal or by phone.
- Urgent cases are typically reviewed within 24 to 72 hours.

Special Circumstances | Authorization Updates

We understand treatment plans can sometimes change.

- If updates are needed for an existing authorization, providers should contact EviCore by phone.
- **The following updates require contacting EviCore:**
 - Modification to the technique(s)
 - Addition of Image Guided Radiation Therapy (IGRT)
 - Additional treatment fractions or phases
 - Change to the cancer type (or non-cancerous) indicated during the case build process
 - Modification to the authorized timespan
- **Changes in treatment plan** will require another Medical Necessity review on a new authorization. If approved, the original case will be withdrawn.
- Claims payment may be impacted if these updates are not communicated to EviCore. The billed services should align with the requested and approved treatment plan.
- If the **authorization time span will not cover the entirety** of the **treatment**, EviCore should be notified before the impacted services are billed by the provider.

Special Circumstances | Alternative Recommendations

- An alternative recommendation may be offered, based on EviCore's evidence-based clinical guidelines.
- When this occurs, the ordering provider can accept the alternative recommendation by building a new case.
- Providers must contact EviCore to accept the alternative recommendation **before** the start of treatment.
