

RADIOLOGY AND CARDIOLOGY
MANAGEMENT

MyAdvocate (Medicare Advantage)

Provider Orientation Presentation

Solution Overview

EviCore by Evernorth (EviCore) manages prior authorization requests for Radiology and Cardiology services for MyAdvocate members

Prior authorization applies to the following services:

- + CT, CTA (Computed Tomography, Computed Tomography Angiography)
- + MRI, MRA (Magnetic Resonance Imaging, Magnetic Resonance Angiography)
- + PET (Positron Emission Tomography)
- + Diagnostic Heart Cath
- + Echo (Transthoracic, Transesophageal) (including C-Codes)
- + Nuclear Stress (Myocardial Perfusion Imaging)

Prior authorization does NOT apply to services performed in:

- + Emergency Room Services
- + 23 Hour Observations
- + Inpatient Stays

Providers should verify member eligibility and benefits on the secured provider log-in section at: [Provider Resources | MyAdvocate Medicare Advantage](#)

If clinical information is needed, please be able to supply the following information:

- + Patient's clinical presentation.
- + Diagnosis code(s)
- + Disease Specific Clinical Information
- + Prior tests, lab work, and/or imaging studies performed related to this diagnosis
- + The notes from the patient's last visit related to the diagnosis
- + Specific conservative care completed (type, specific duration, how recent, and outcomes)

Hold process | Share Documentation to Support Medical Necessity

If during case build all required pieces of documentation are not received, or are insufficient for EviCore to reach a determination, the following will occur:

A Hold Letter will be faxed to the Requesting Provider requesting additional documentation

The Hold notification will inform the provider about what clinical information is needed as well as the date by which it is needed.

The Provider must submit the additional information to EviCore

Requested information must be received within the timeframe as specified in the Hold Letter, or EviCore will render a determination based on the original submission.

EviCore will review the additional documentation and reach a determination

Determination notifications will be sent.

There are three ways to share the requested information to EviCore for review:

- + Additional clinical information must be submitted to EviCore in advance of the due date referenced in the hold letter.
- + Additional clinical information should be submitted to EviCore for consideration per the instructions received, clinical can be **uploaded** directly into the case via the provider portal at [Provider's Hub | EviCore by Evernorth](#)
- + Alternatively, providers can choose to request a **Pre-Decision Clinical Consultation** instead of submitting additional clinical information. This consultation can be scheduled via the EviCore portal (see the P2P Scheduling Tool in the appendix for further instruction).
- + The Pre-Decision Clinical Consultation must occur prior to the due date referenced
- + If the additional clinical information is faxed/uploaded, that clinical is what is used for the review and determination. The case is not held further for a Pre-Decision Clinical Consultation, even if the due date has not yet lapsed
- + Once the determination is made, notifications will go out to the provider and member, and status will be available on [Provider's Hub | EviCore by Evernorth](#)

Prior Authorization Outcomes, Special Considerations, and Post Decision Options

Outcomes | Approvals and Denials

- + Approved requests are typically processed in two business days after receipt of all necessary clinical information.
- + Authorizations are typically valid for 90 calendar days from the planned date of service (DOS).
- + Denied request communications will include the decision rationale, guidelines relied upon, and the post decision options.
- + Partially Approved Requests: In instances where multiple CPT codes are requested, some may be approved and some denied. In these instances, the determination letter will specify what has been approved, as well as post-decision options for denied codes.
- + Decision communications will be shared via e-notification (default) or faxed to the ordering provider and faxed rendering facility/provider.
- + Decision information can be printed or saved on demand from the EviCore portal.
- + The member will receive the letter in the mail.

Authorization Updates

- + If updates are needed for an existing authorization, providers should contact EviCore by phone.
- + **The following updates will require contacting EviCore:**
 - + Modification to the procedure
 - + Modification to the DOS or authorized timespan
- + **Changes in treatment plan** will require another Medical Necessity review on a new authorization. If approved, the original case will be withdrawn.
- + Claims payment may be impacted if these updates are not communicated to EviCore. The billed services should align with the requested and approved treatment plan.

Post Decision Options

Reconsiderations

- + Medicare does not allow reconsiderations.

Clinical Consultations

- + If a request requires further clinical review, we welcome requests for a clinical consultation with an EviCore medical director.
Please note: Clinical Consultations that occur on already denied cases will be consultative only. EviCore is not delegated to change initial determinations on Medicare cases.
- + Portal users can schedule a clinical consultation, on behalf of the treating provider, directly on the EviCore portal (see the P2P Scheduling Tool in the appendix for further instruction).
- + Physicians, nurse practitioners, and physician assistants can request a clinical consultation by visiting www.eviCore.com/provider/request-a-clinical-consultation.

Appeals

- + Appeals need to be submitted to the health plan.
- + Please follow the appeal instructions referenced in the denial letter.

Special Circumstances

Retrospective Authorization Requests

- + Authorization must be provided in advance of the service, unless the service is urgent and performed outside of business hours. In those cases, retrospective requests must be submitted within 2 business days from the date of service.
- Retrospective requests are reviewed for urgency and for medical necessity.

Urgent Prior Authorization Requests

- + Medically urgent outpatient procedures must meet the National Committee for Quality Assurance's definition of medical urgency requests. To be considered urgent, the patient must have conditions that are a risk to his or her life, health, or ability to regain maximum function, or have severe pain that requires a medically urgent procedure.
- + Retrospective requests are reviewed for urgency and for medical necessity.
- + Urgent requests will be reviewed within 24 hours.

A screenshot of the EviCore MFA verification interface. At the top is the EviCore logo with 'By EVERNORTH' underneath. The main heading is 'Verify your identity'. Below this, it says 'We've sent an email to:' followed by a text input field. Underneath that is a label 'Enter 6-digit code*' and another text input field. A checkbox with a checkmark is labeled 'Remember this device for 30 days'. A large teal 'Continue' button is centered below the inputs. At the bottom, there is a link: 'Didn't receive a code? Check your spam or junk folder or [Resend](#).' and another link: '[Use a different verification method](#)'.

How do I access EviCore's clinical guidelines?

1. Open the **Resources** menu in the top right of the browser
2. Select **Clinical Guidelines**
3. Select the **Musculoskeletal: Advanced Procedures** solution/program associated with the requested guidelines
4. Search by health plan name to view clinical guidelines
5. If you would like to view **all** guidelines, type in "EviCore by Evernorth" as your health plan

Additional literature summaries may be accessed by selecting 'Supplemental Information' and then entering "EviCore by Evernorth" in the search by health plan function.
